South Atlantic & Caribbean

Magnuson Stevens Act

Notice of Violation and Assessment (NOVA) for failing to carry observer and for failing to timely report vessel logbook forms

A Special Agent conducted an investigation on the fishing vessel Seahawk, operated by Captain Don Rynn. The investigation documented 17 fishing trips in which the fishing vessel Seahawk failed to carry an observer with them. The investigation also revealed Rynn failed to submit 72 logbooks to NMFS within the required timeframe. The NOAA Office of General Counsel issued a \$26,000 NOVA to Don Rynn, owner and operator of fishing vessel Seahawk for failing to carry observer and for failing to timely report vessel logbook forms.

Summary Settlements for VMS violations

While on a joint enforcement patrol in Tortugas South Ecological Preserve, FKNMS, the FWCC boarded the fishing vessels El Marichal and Kazan. While conducting an inspection of the vessel, FWCC officers discovered that the VMS unit was turned on shortly before boarding's and had not been operating during the fishing trip prior to the boarding. A Special Agent from the Marathon, FL Field Office issued a two separate Summary Settlements in the value of \$2,000 jointly and severally to the owners of the fishing vessels El Marichal and Kazan.

Summary Settlements for illegal discharge and fishing in the FKNMS

While on a joint enforcement patrol in Tortugas South Ecological Preserve, FKNMS, the FWCC boarded the fishing vessel operated by Eliu Gonzalez. Eliu Gonzalez was found fishing in the Tortugas South Ecological Preserve and had discharge of raw or primary treated sewage. A Special Agent from the Miami Field Office issued a Summary Settlement in the value of \$2,200 jointly and severally to Eliu Gonzalez for fishing in the Tortugas South Ecological Preserve (\$400) and for discharge of raw or primary treated sewage (\$1,600).

Endangered Species Act

ESA Violation

Known as Operation Quick, a Special Agent from the Marathon Field Office conducted a five year investigation that came to a conclusion. The focus of the operation centered on the activities of several Florida Keys commercial lobster divers that were using illegal artificial habitat (known as casitas) to harvest spiny lobster within the boundaries of the Florida Keys National Marine Sanctuary, Great White Heron National Wildlife Refuge, and in the waters of the State of Florida.

On June 18, 2015, Charles, Ryan, and Tyson Veach along with the corporation Super Grouper, Inc. were sentenced in Federal Court based on their Lacey Act convictions for knowingly transporting, selling, receiving, acquiring, and purchasing lobster in violation of the laws and regulations of the State of Florida. All three were sentenced to 6 months in prison followed by 1 year of supervised release and each received a criminal fine of \$25,000. Super Grouper Inc. was also sentenced to 5 years' probation. A 32' Invincible fishing vessel that was used in the commission of the Lacey Act violations was ordered forfeited to the government.

In addition, a U.S. Fish and Wildlife dive team was used to locate and document the underwater artificial habitat spots. As a condition of prior guilty pleas, the Veach's removed, at their own expense, over three construction dumpsters full of artificial habitat material at an estimated weigh of over 25,000 pounds.

ESA Investigation in St. Thomas, USVI

As a result of a NOAA Special Agent's investigation, Sean Penn was recently indicted by a federal grand jury in St. Thomas, USVI on three counts. The charges were 16 USC 1538 for the illegal take and possession of an ESA listed species, 18 USC 2232(a) for the destruction or removal of evidence, and the Lacey Act (16 USC 3372(a)(1)) for the illegal take and transportation of a green sea turtle. During a boarding by CBP MIA Agents off of St. Thomas, USVI, Sean Penn was asked about a speared object in a cooler which Mr. Penn then dumped overboard. The CBP Agents could clearly see a fresh green sea turtle with its head and carapace removed in the clear waters directly below the vessel. The dead turtle was recovered by Coral

World Aquarium personnel on behalf of the U.S. Virgin Islands Department of Planning and Natural Resources.

Marine Mammal Protection Act

Notice of Violations and Assessments for Right Whale Speed Restriction Violations

NOAA Office of Law Enforcement investigations revealed that four vessels had been violated speed restrictions within the Seasonal Management Areas off of the East Coast, enacted for the protection of North Atlantic right whales under the Marine Mammal Protection Act.

The owner and operator of the Motor Vessel Cosco Nagoya agreed to pay \$51,750 assessed against them for transiting over 465 miles within the Seasonal Management Areas off of the East Coast. The vessel had egregiously exceeded the 10-knot speed restrictions during 49 incidents.

The owner and operator of the Motor Vessel Melina agreed to pay 90% of an \$18,250 assessed penalty for transiting over 105 miles within the Seasonal Management Areas off of the East Coast. The vessel had egregiously exceeded the 10-knot speed restrictions during 16 incidents.

The owner and operator of the Motor Vessel Moondancer agreed to pay 90% of the \$9,000 assessed penalty for transiting over 165 miles within the Seasonal Management Areas off of the East Coast. The vessel had egregiously exceeded the 10-knot speed restrictions during seven incidents.

The owner and operator of the Motor Vessel Sempre Duro agreed to pay 90% of the \$19,750 assessed penalty for three speed restriction violations and logbook recordkeeping violations.

COPPS Letter for Drone Flying Over Right Whales

Based on a complaint from the NMFS Southeast Regional Office – Protected Resources, a Special Agent from the Port Orange Field Office issued a Community Oriented Policing and Problem Solving (COPPS) letter to the operator of a drone/Unmanned Aerial Vehicle who posted a video on the internet of the drone flying over a North Atlantic Right Whale mother/calf pair off of Ormond Beach.

The letter included information on the 500 yard close approach rule and marine mammal viewing guidelines. NOAA Says Drone Pilots Can't Film Endangered Whales. The video has since been taken down. An OLE agent coordinated with a Federal Aviation Administration agent to determine if the commercial drone operator is properly permitted with the FAA.

Partnerships

NOAA OLE International Liaison - México and Central America at Sea Cucumber Workshop.

On April 22-24, 2015, in Merida, Mexico, the World Wildlife Fund's wildlife trade monitoring network (WWF-TRAFFIC) and the Mexican Federal Attorney for Environmental Protection

(PROFEPA) hosted a regional training and capacity building workshop focused on combating the illegal trafficking of sea cucumber.

The workshop offered a valuable opportunity for the United States to show their commitment to protecting oceans and expanding international cooperation as part of the U.S. National Strategy for Combating Wildlife Trafficking and the Presidential Initiative on Combating Illegal, Unreported, and Unregulated (IUU) Fishing and Seafood Fraud. The NOAA Office of Law Enforcement and U.S. Fish and Wildlife Service (USFWS) sent law enforcement representatives to share U.S. best practices and expertise in establishing proper documentation to monitor sea cucumber trade from sea to plate, tackling marine species poaching, State Port measures, illegal trafficking-IUU and false labeling.

In the News

Gulf of Mexico

Magnuson Stevens Act

Summary Settlement for Bluefin Tuna Violation

A Special Agent investigated a complaint about a recreational fisherman for having a Bluefin tuna without a valid permit. The investigation revealed that the owner/operator of the recreational fishing vessel Flustered Duck was in possession of a 535lb Bluefin tuna and did not have a valid HMS permit. The Special Agent issued a \$2,000 Summary Settlement for possession of a Bluefin tuna without a valid HMS permit and helped the subject obtain a valid permit and properly report the fish for scientific data.

Summary Settlement for no Federal Fishing Permits

A Special Agent investigated a complaint about a recreational fisherman for chartering a vessel without the required federal permits. Investigation revealed that the owner/operator of the recreational vessel chartered the vessel without a proper federal permit to do so. A

\$3,000 Summary Settlement was issued for failure to obtain the required Federal charter permits (Reef and Coastal Migratory Pelagic currently under a limited access moratorium status).

Lacey Act

Lacey Act Investigation

In June 2015, a Special Agent in the Niceville, FL office testified before the Grand Jury for the case against COASTAL CONNECTION LLC, an unlicensed dealer from Tennessee who purchased recreationally caught fish from fishermen in Alabama and Florida, including an undercover NOAA agent and FWC investigators.

The dealer made numerous trips to the Gulf Coast of Florida and Alabama between 2011 and 2014 to purchase unreported and illegal reef fish and then traveled back to Tennessee to sell the illegal fish. A three count Grand Jury indictment against the owners was obtained.

Lacey Act Mislabeling Investigation

A Special Agent attended the initial appearance at the U.S. District Court for the Eastern District of Louisiana for Garcia Shrimp Company, LLC. The company pleaded guilty to a one count felony Lacey Act violation for mislabeling over 35,000 pounds of imported Mexican shrimp as a product of the United States. The company has agreed to pay a \$150,000.00 fine, receive 3 years' probation which includes independent auditing of the company's activities, and the forfeiture of \$120,000.00 of shrimp that was seized and sold to the highest bidder.

Endangered Species Act

ESA Violation for Killing Kemps Ridley Sea Turtle

A Special Agent investigated a case involving a juvenile Kemps Ridley Sea turtle being caught with a rod n reel on a recreational fishing pier in Dauphin Island, Alabama. According to witnesses, the man was warned by several people that he was not allowed to keep the turtle. When the people saw him not only keep the turtle but cut the turtle's throat, they called the state game wardens. Local police responded and passed the information to a NOAA OLE agent who conducted an investigation and presented the case to the United States Attorney's office. In March of 2015, Mr. Charles E. Mallory plead guilty in U.S. District Court and in June was sentenced to imprisonment for 5 months, drug abuse testing and substance abuse treatment.

Marine Mammal Protection Act

MMPA Sentencing for Killing Dolphin

A Special Agent attended the sentencing of Cade and Corey Moseley in U.S. District Court. Both suspects pled guilty to one misdemeanor count of violating the Marine Mammal Protection Act for shooting and killing a dolphin with a bow and arrow.

In the News

The suspects were each sentenced to one year probation and ordered to pay a \$500 criminal fine and were ordered to pay restitution in the amount of \$7,335 and serve 50 hours of community service to the Texas Marine Mammal Stranding Network and Texas Parks and Wildlife. Additionally, both defendants were banned from hunting or fishing in the United States for a period of 1 year. The case was prosecuted by the United States Attorney's Office in the Eastern District of Texas.

The case originated with a report of two dolphins being stranded in Cow Bayou (near Bridge City, TX), one of which was reported to be deceased with an arrow sticking out of its back. Extensive interviews eventually located a source at a local archery shop which provided information about the involvement of Cade and Corey Moseley. The brothers (ages 18 and 21) admitted shooting at both dolphins and made written confessions regarding their involvement.

Partnerships

Joint Enforcement Operation

Special agents and an Enforcement Officer from the Corpus Christi, Galveston, and Slidell offices conducted a joint border inspection operation with U.S. Fish and Wildlife, U.S. Food and Drug Administration, and Customs and Border Protection at the Veterans Port of Entry Commercial Import Dock in Brownsville, TX.

The three day operation was coordinated by the Corpus Christi Field Office and was designed to specifically target imports from possible Illegal Unreported Unregulated (IUU) fishing vessels. During the three day operation, the team was able to identify and search 8 commercial loads of seafood coming from Mexico to the United States valued at nearly \$1.2 million dollars. These imports included Bluefin tuna, yellowfin tuna, reef fish, and blue crab.

Information gained during this operation has been used to assist in an investigation by the Corpus Christi special agent into the smuggling of Bluefin and yellowfin tuna into the United States from Mexico.

Joint Enforcement Patrol

A Special Agent organized three TED patrols with Texas Parks and Wildlife in response to a sharp increase in turtle stranding's. Approximately, 20 otherwise healthy turtles had washed up dead on the beach with large amounts of sediment in their lungs (believed to be indication of forced drowning). During the three patrols 10 vessels were boarded, and only one minor violation was found and charged by Texas Parks and Wildlife.

COPPS & Outreach

Joint Outreach Effort

A Special Agent and NOAA Gear Specialist traveled to Venice, Buras and Empire, LA on April 8th and 9th to perform Turtle Excluder Device (TED) Dockside Compliance Checks of the local shrimp fleet vessels.

A total of fifteen (15) shrimp vessels were boarded with approximately forty-five (45) TEDs being checked. Many of the TEDs were of the fixed angle, double cover configuration. Only a few discrepancies were noted and those corrections were made on sight with the assistance of Gear Specialist Brown.

NOAA Port Agent, Jill Jensen, and Vietnamese Community Organizer, Sandy Nguyen, were on scene to help set up appointments, coordinate boarding's and provide translations. Two Audubon representatives were present on April 8th and were interested in the TED compliance efforts of NOAA OLE.

Joint ESA Meeting

A Special Agent participated in the public release event of over 100 sea turtles including several ESA listed Kemp's Ridleys.

The majority of these turtles had been injured and rehabilitated by the NOAA Galveston Turtle Lab. Over 500 people attended the event including all forms of media. The Special Agent was asked to participate to ensure the public complied with the instructions of the staff to ensure the safe release of the turtles back to the wild.
