

Private Recreational Tilefish Electronic Reporting

SAFMC Recreational Working Group
May 26, 2021

Need for Requirements

- Harvest has been increasing
- Tilefish fishery occurs offshore, typically in waters 50-100 miles (80-160 kilometers) from shore
- Few anglers partake, low intercept rate (MRIP)
- eVTR: Gather rec. tilefish catch and effort data not captured through dockside interviews/angler phone surveys
- Blueline tilefish stock assessment is based on a data limited approach

Requirements

■ Who

- Rec. vessel intending to fish for blueline or golden tilefish north of the NC/VA border
- Also applies to for-hire vessels that take private rec fishing trips

■ What

- Required to obtain federal private rec. tilefish vessel permit before taking a trip, electronically report trips
- Retained fish may only be kept for personal consumption
- No fees for permit or reporting app

Requirements

- Reporting fields required (any rec trip when tilefish are targeted or retained):
 - Vessel name, USCG #, permit #
 - Date/time sailed, date/time landed
 - Trip type, # of anglers, target species
 - Gear fished, quantity and size of gear,
 - Fishing time, depth, chart area, lat/lon where fishing occurred
 - Count of tilefish landed/discarded
 - Port and state landed

Requirements

■ When

- Beginning August 17, 2020
- Report trips within 24 hours of returning to port

■ How

- Approved electronic vessel trip reporting system
- eFin Logbook: mobile app designed by anglers
 - Currently only for rec tilefish reporting
- NOAA Fish Online
 - Can satisfy GARFO eVTR requirements for rec tilefish, as well as commercial/for-hire trips

eFin Logbook Mobile App

Implementation

- Training
 - April 28, 2020: Webinar/demo, recording available
 - FAQs/outreach materials on webpage
 - Port Agents
 - Rack Card
- Requirements went live in August 2020 (under 3 months left of season)
 - Season runs May 1st - October 31st
- 2020: ~340 permits, 8 recreational trips, 84 fish
- 2021: opened 5/1, notice of Tuna closure 5/4, detailed report anticipated at Oct. MAFMC meeting

New Permitting and Reporting Requirements for Recreational Blueline and Golden Tilefish

Effective August 17, 2020, all recreational vessels fishing for blueline or golden tilefish must have a permit and report their trip within 24 hours of returning to port.

Who Does This Impact?

- Vessels fishing for or retaining tilefish from Virginia to Maine.
- For-hire vessels holding an existing GARFO permit who take private recreational tilefish trips.
- States may have additional permitting or reporting requirements for recreational fishing.

What Do I Need To Do?

- Obtain a Private Recreational Tilefish Permit from the Greater Atlantic Regional Fisheries Office (GARFO).
- Report your trip with one of the available reporting options.

Why Is This Happening?

- To better characterize and monitor the tilefish fisheries for long-term sustainability.
- More information can be found on the Mid-Atlantic Fishery Management Council's tilefish web page: mafmc.org/rec-tilefish-evtr.

Permitting (Search: GARFO Permits)

You must apply for your permit online. There is no cost for the permit.

How Do I Get a Permit?

Start with registering an account on the **GARFO Fish Online** website: greateratlantic.fisheries.noaa.gov/apps/login/

- Create a user name and password.
- Existing permit holders may apply through their current **Fish Online** account.
- Click Initial **Private Recreational Tilefish Permit**.

Reporting (Search: GARFO eVTR)

You must report all trips that either targeted or retained tilefish to GARFO within 24 hours of returning to port using an approved electronic vessel trip reporting (eVTR) system.

How Do I Report?

eVTR apps are available for smartphones and tablets. See our website for reporting options and how to get started.

For assistance contact our
Help Desk at (978) 281-9188 or
nmfs.gar.helpdesk@noaa.gov. For additional
support, contact your local Port Agent.
(Search: GARFO Port Agents)

Next Steps

- Tilefish Permitting/Reporting Review at Oct. Council Meeting
 - # permits issued
 - Catch and landings
 - Effort
 - Reporting
 - Outreach
- Review can inform compliance
 - Some stakeholders concerned/frustrated with required reporting
 - Potential need for increase outreach efforts
 - App expansion, increase the value to user

Thank You!
