Commercial Reporting at Time of Permit Renewal

Southeast Fisheries Science Center

**NOAA
FISHERIES
SERVICE**

Commercial Reporting

- Focus: Permit renewals delayed because of missing reports
 - Late data may have inaccuracies
- Dealer permits (GSAD – Gulf and South Atlantic Dealer)
- Vessel permits (Snapper/Grouper, King Mackerel, Spanish Mackerel, Atlantic Dolphin and Wahoo)

Commercial Reporting

Missing reports must be submitted for a permit to be renewed

Permit owner notified that permit will expire 2 months in advance.

Permit owner applies for permit renewal

Reporting period =

start of permit to one year later

or

start of permit to date of application to renew

Renewal reports = reports from reporting period submitted after application to renew is received

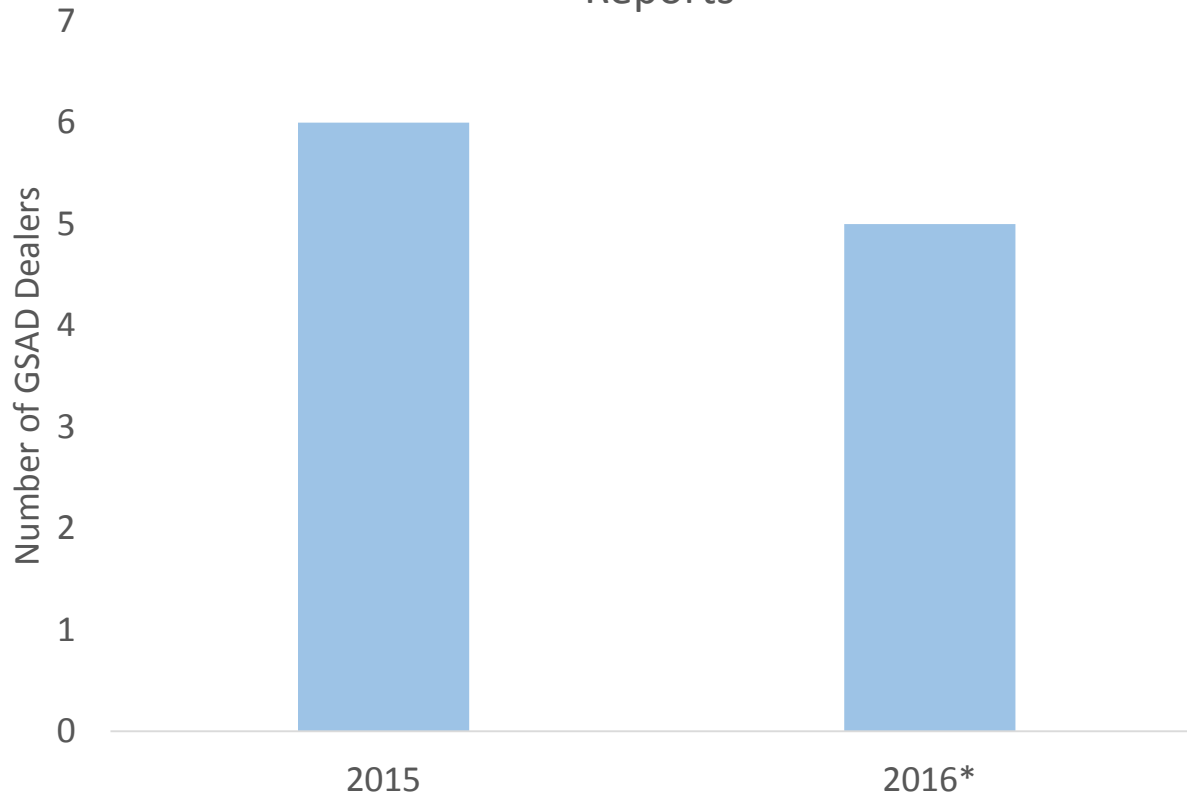

Gulf and South Atlantic Dealer (GSAD) Permits

- Effective August 7, 2014, the Gulf and South Atlantic Dealer (GSAD) permit was created.
- Under the GSAD, dealers are required to electronically submit a weekly report by midnight each Tuesday for the previous Sunday through Saturday.
- Dealers cannot renew GSAD permits until reports are received for every week during the reporting period.
- SEFSC summarized all species caught from ME-FL Keys reported electronically by the dealer, not just federally-managed species.

Gulf and South Atlantic Dealer (GSAD) Permits

Number of GSAD Dealers Submitting 'Renewal
Reports'

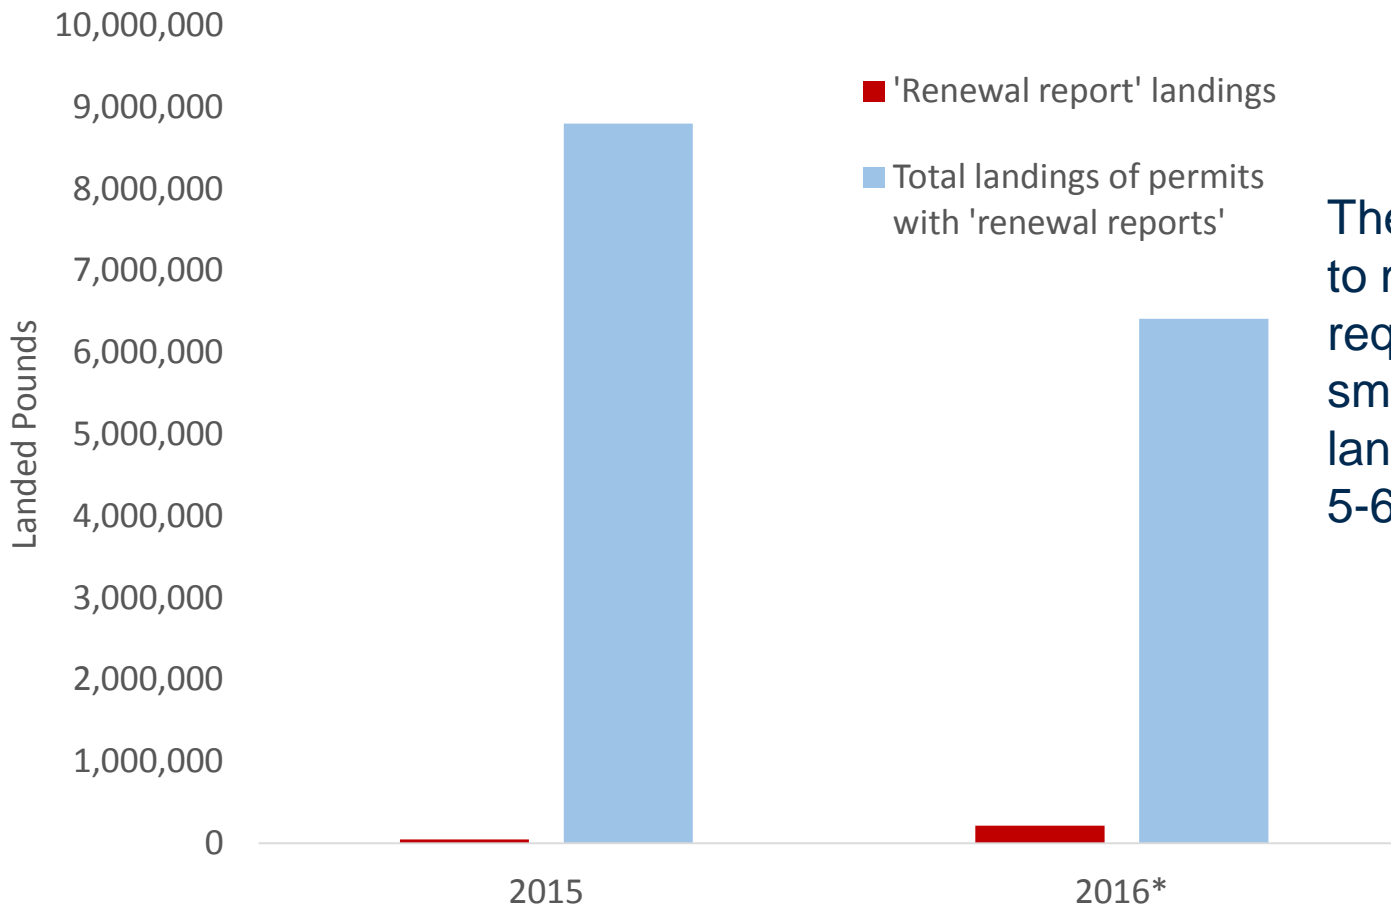

5-6 dealers each year had to report landings from earlier periods before their permit could be renewed

* 2016 data is still preliminary

Gulf and South Atlantic Dealer (GSAD) Permits

All species landings- 'renewal report' permits

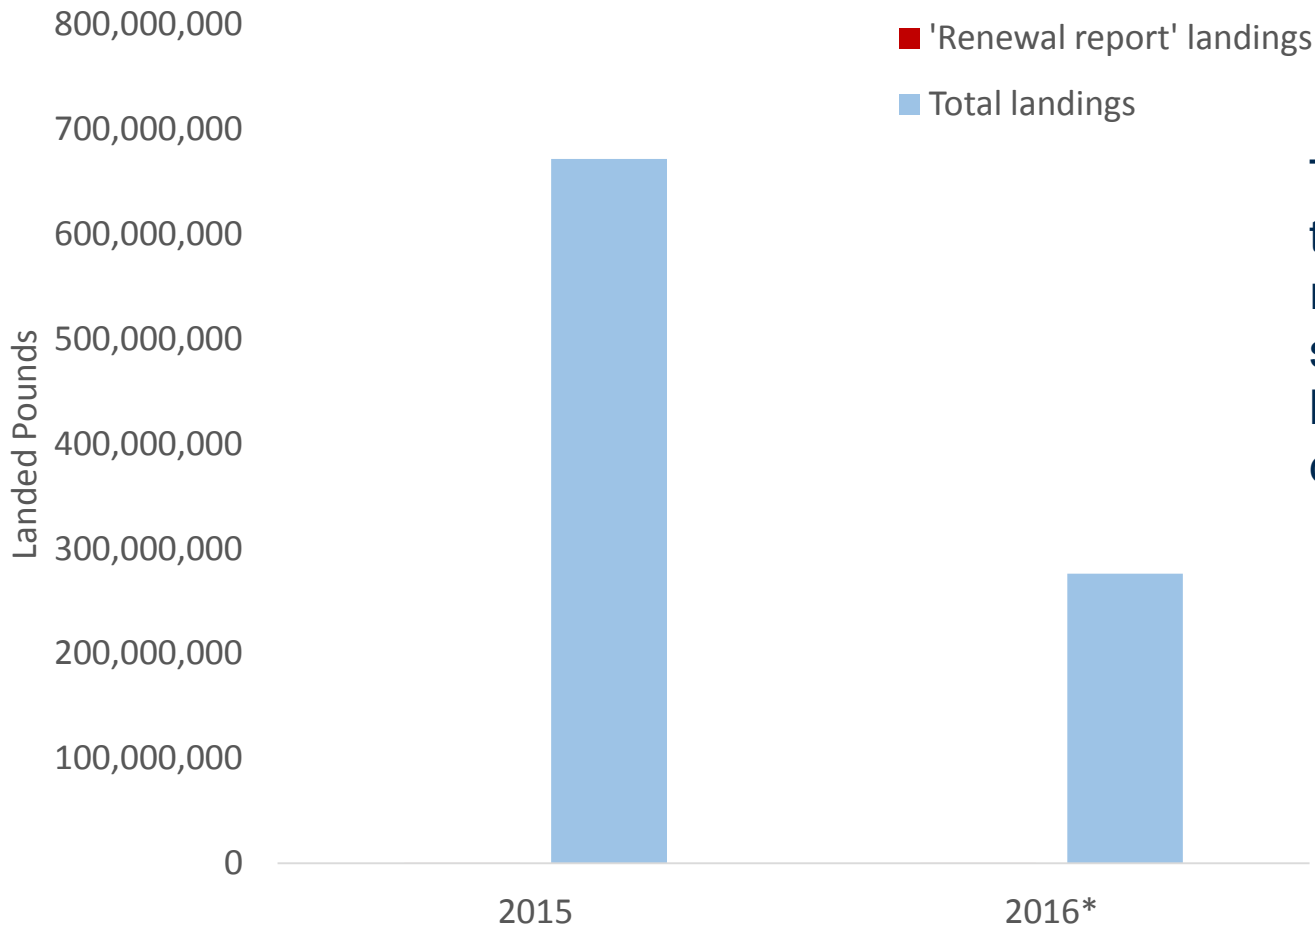

The landings reported to meet permit renewal requirements were a small fraction of total landings by those 5-6 dealers

Gulf and South Atlantic Dealer (GSAD) Permits

All species landings

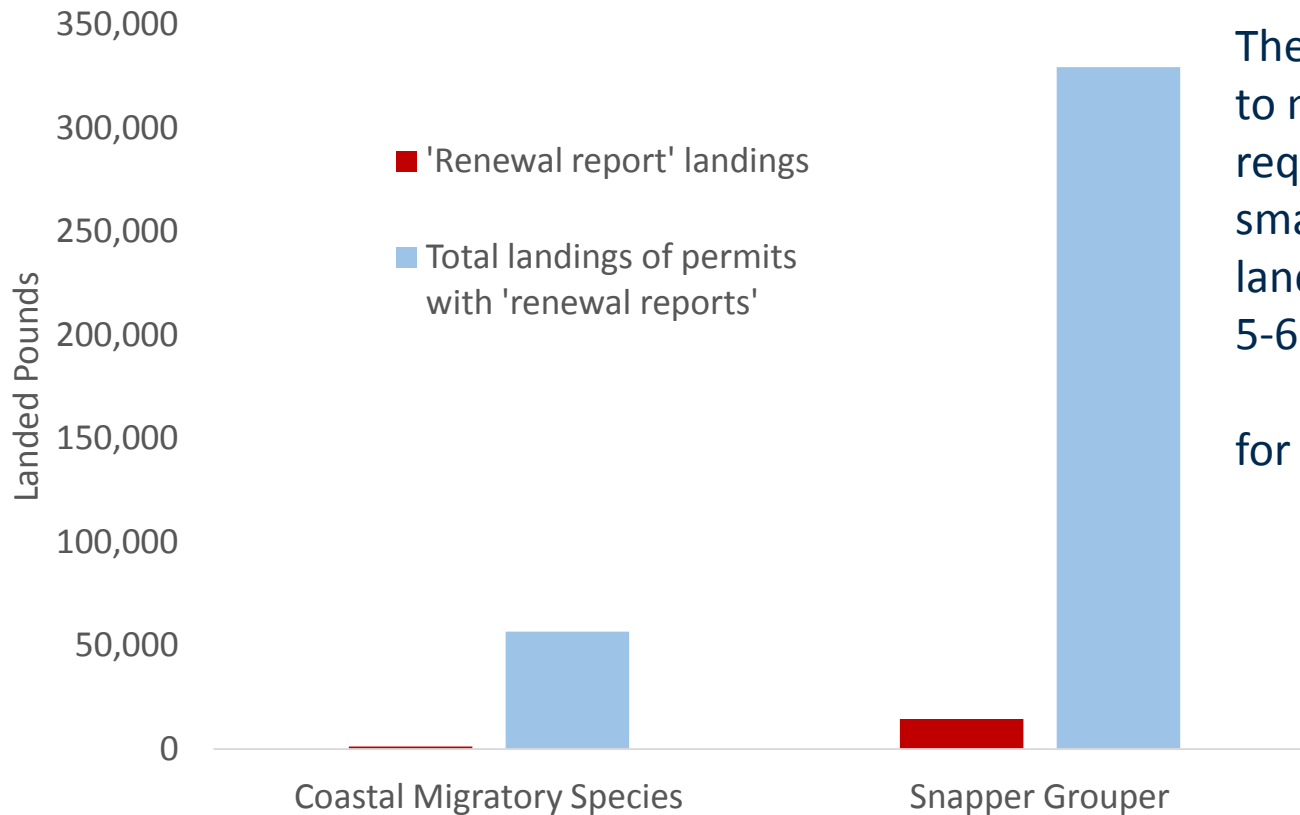

The landings reported to meet permit renewal requirements were a small fraction of total landings by all dealers

Gulf and South Atlantic Dealer (GSAD) Permits - 2015

'Renew report' landings
vs total landings by dealers with 'renew reports'

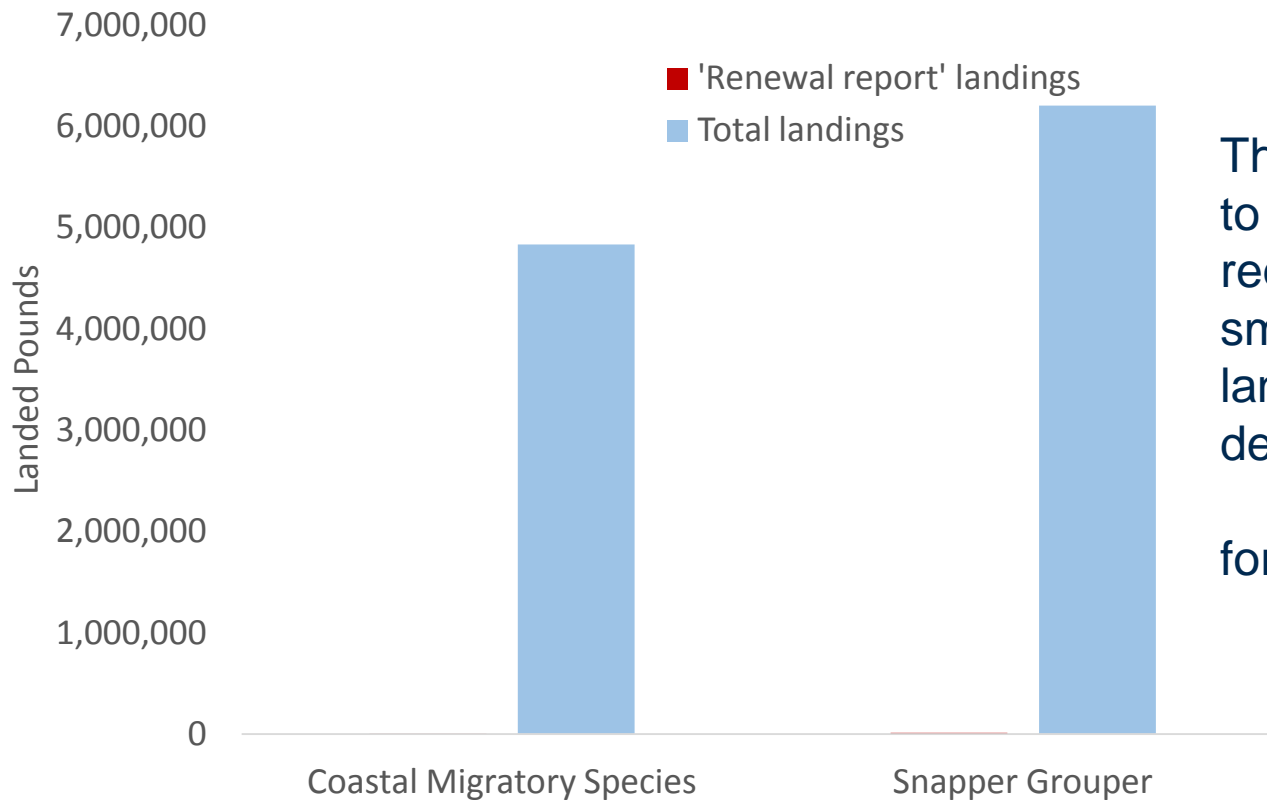

The landings reported to meet permit renewal requirements were a small fraction of total landings by those 5-6 dealers

for two FMPs

Gulf and South Atlantic Dealer (GSAD) Permits - 2015

'Renew report' landings
vs total landings

The landings reported to meet permit renewal requirements were a small fraction of total landings by all dealers

for two FMPs

Coastal Vessel Permits

Missing reports must be submitted for a permit to be renewed

Permit owner notified that permit will expire 2 months in advance.

Permit owner applies for permit renewal

Reporting period =

start of permit to one year later

or

start of permit to date of application to renew

Renewal reports = reports from reporting period submitted after application to renew is received

Coastal Vessel Permits

Two types of renewal reports

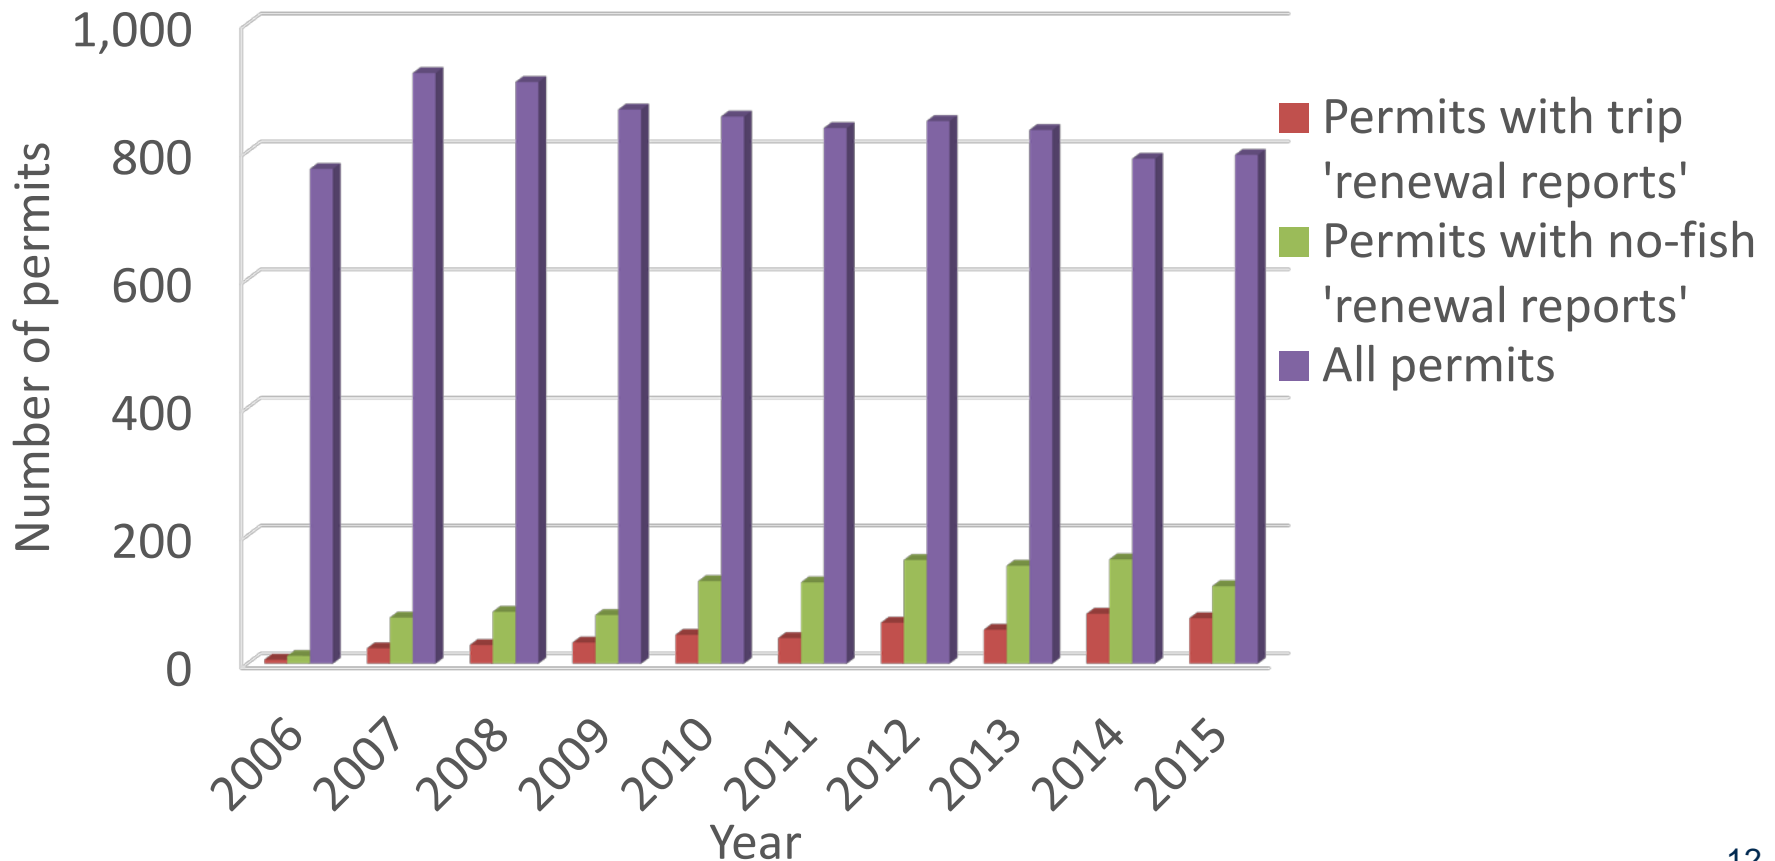

trip reports- due 7 days after the trip

no fish reports (vessel did not fish)- due 7 days after month with no fishing

Coastal Vessel Permits – Snapper Grouper

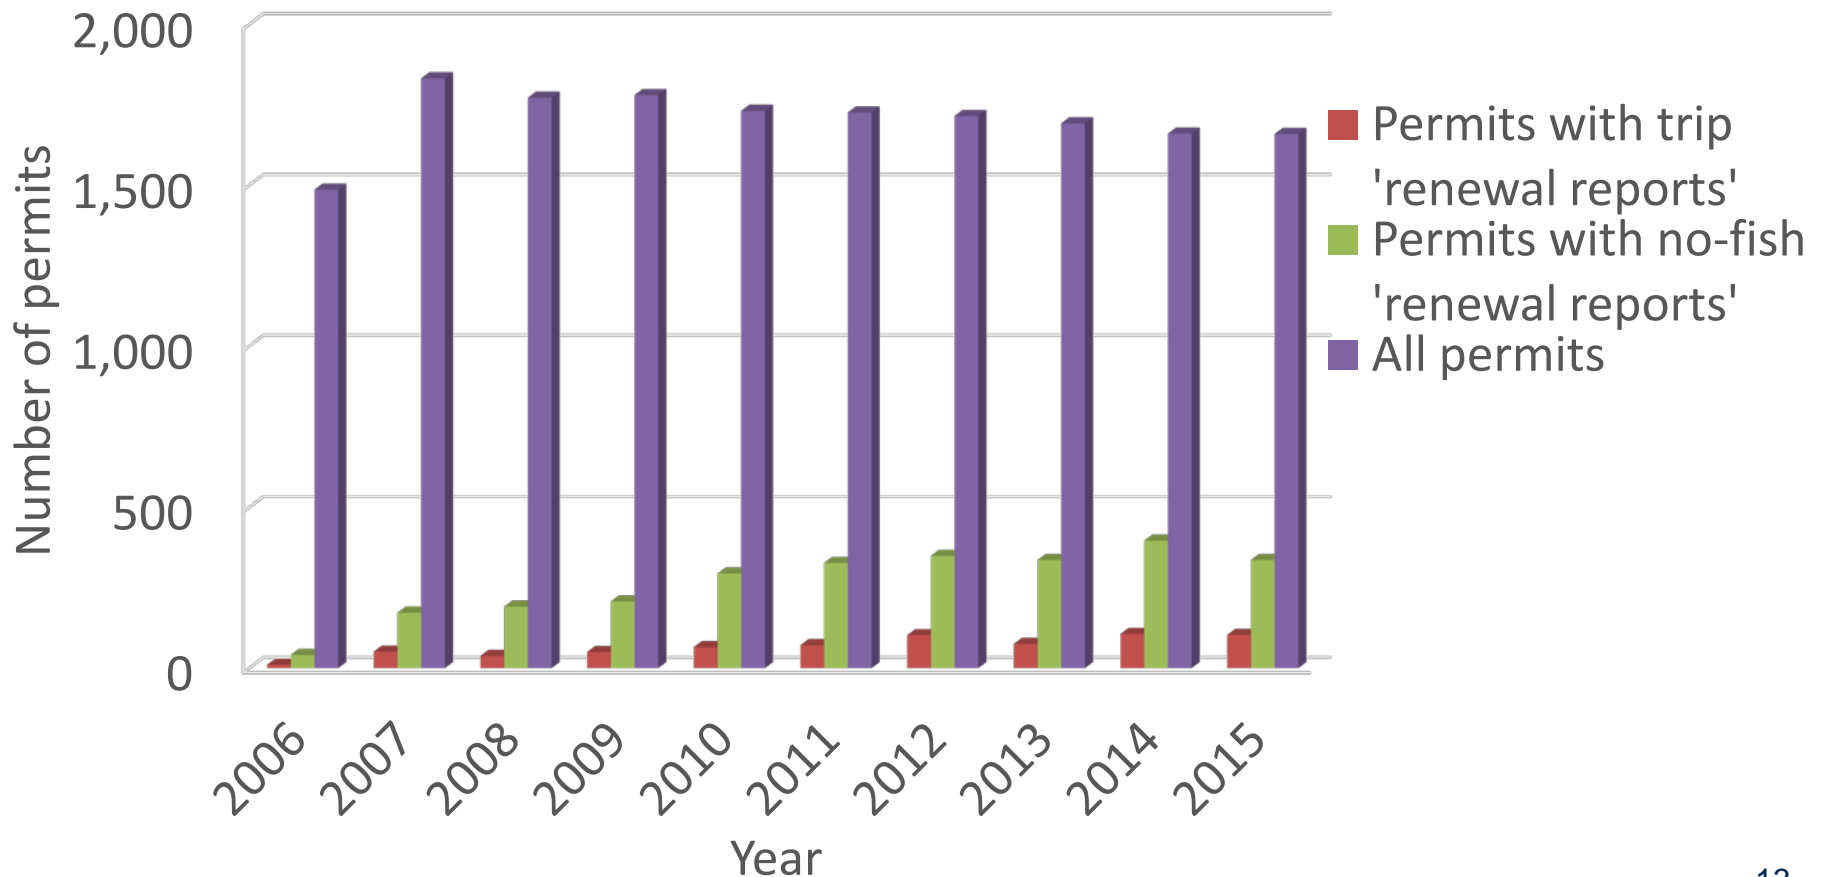

Commercial Snapper Grouper Permits

Coastal Vessel Permits -King Mackerel

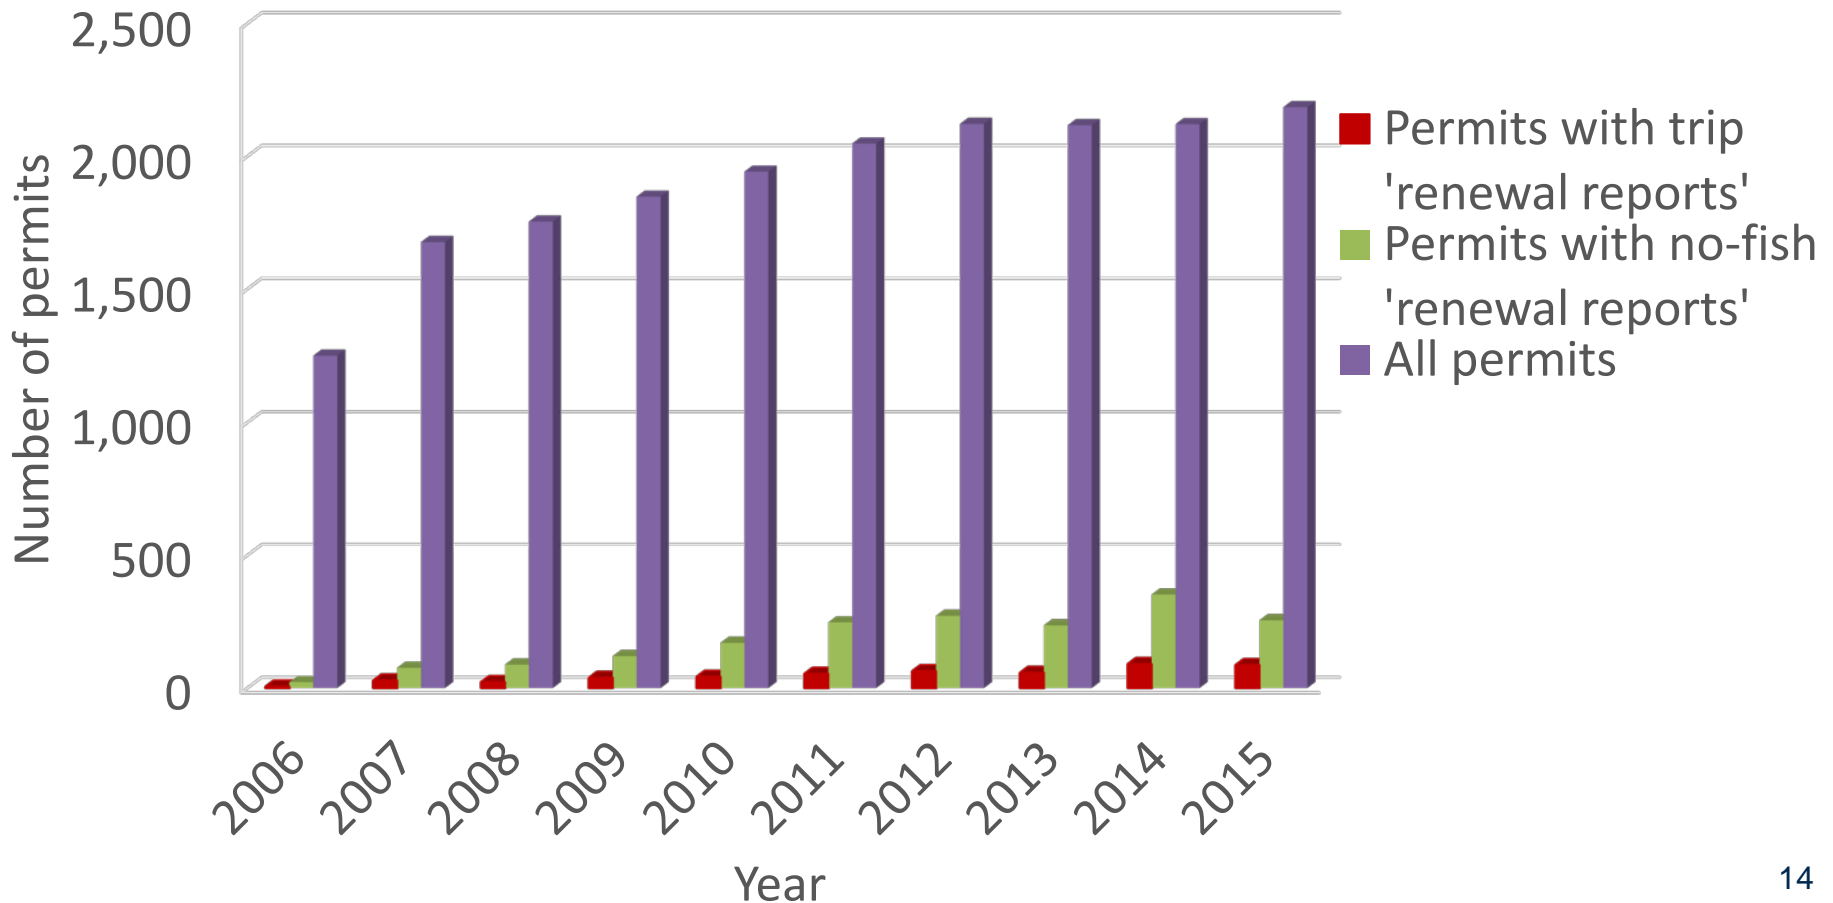

Commercial King Mackerel Permits

Coastal Vessel Permits – Spanish Mackerel

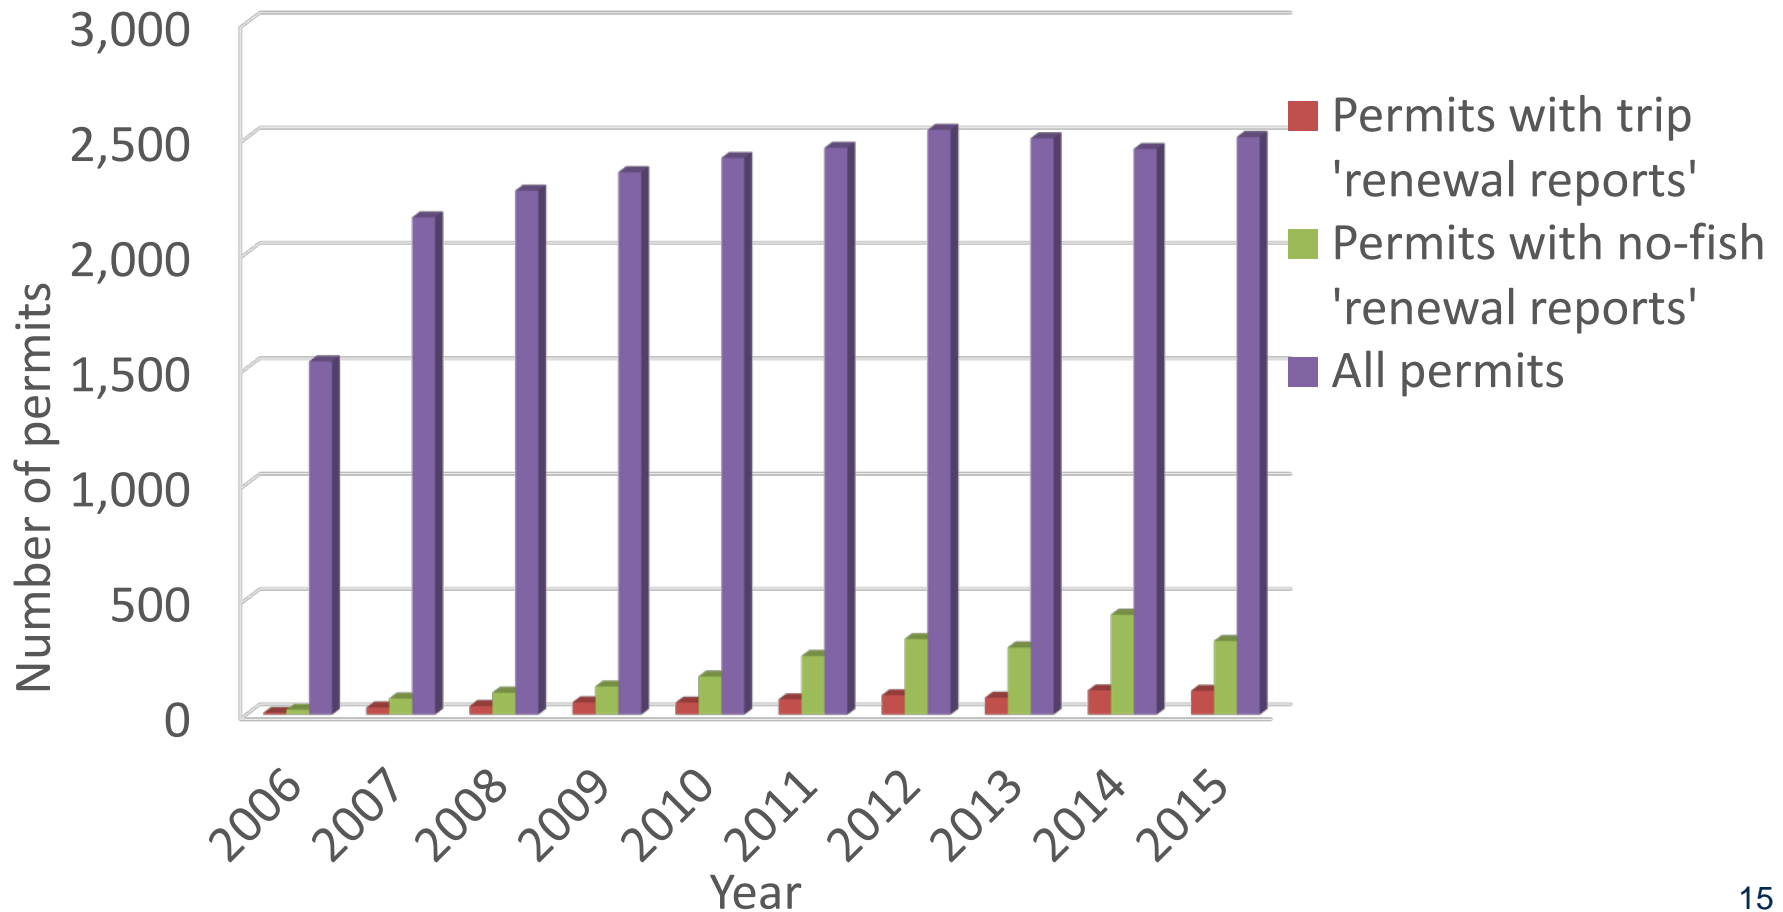

Commercial Spanish Mackerel Permits

Coastal Vessel Permits - Atlantic Dolphin Wahoo

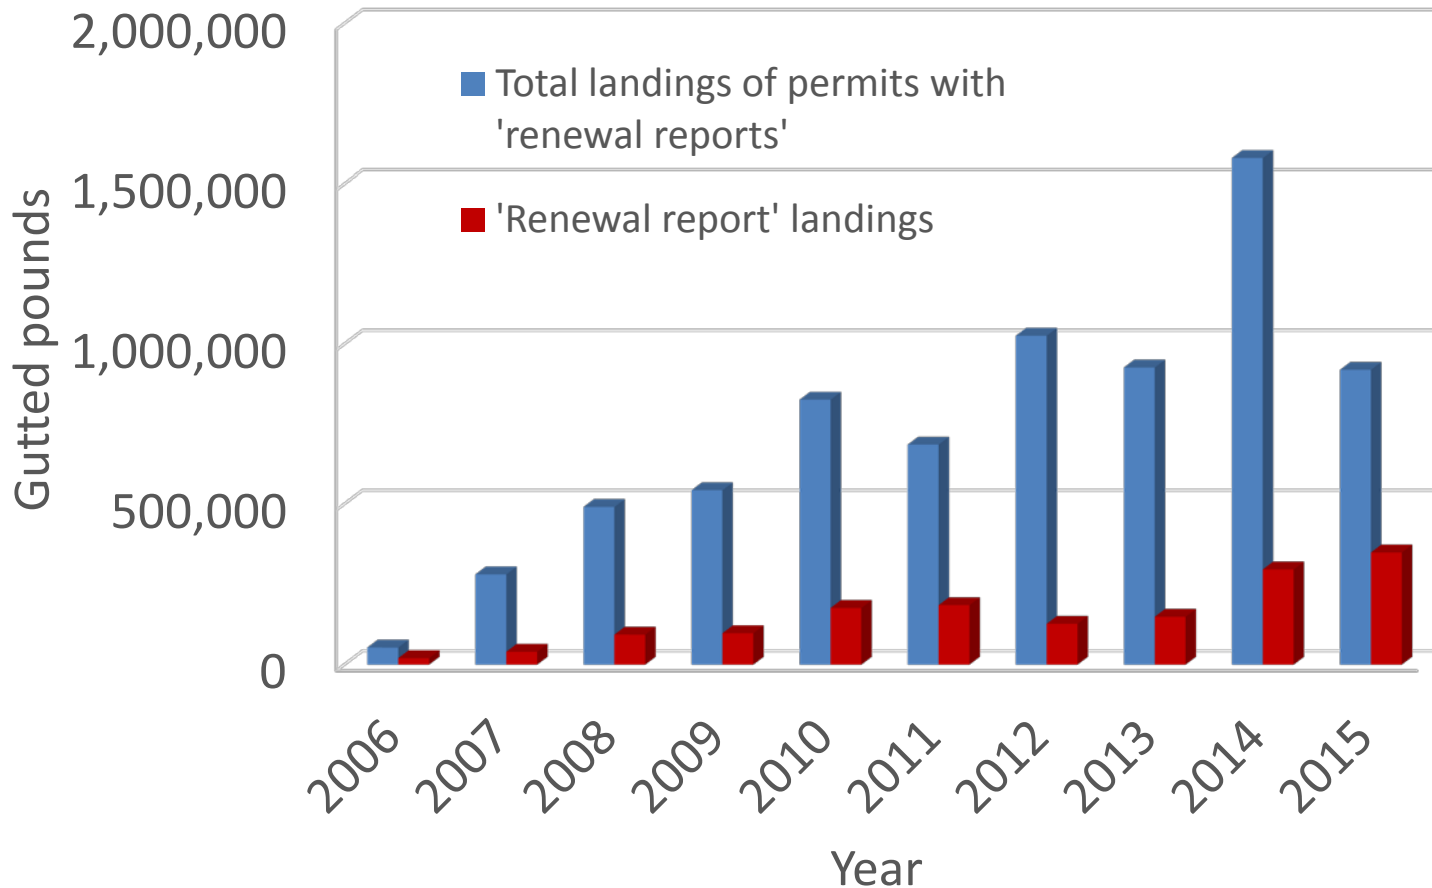

Commercial Atlantic Dolphin Wahoo Permits

Coastal Vessel Permits – Snapper Grouper

Snapper/grouper landings- 'renewal report' permits

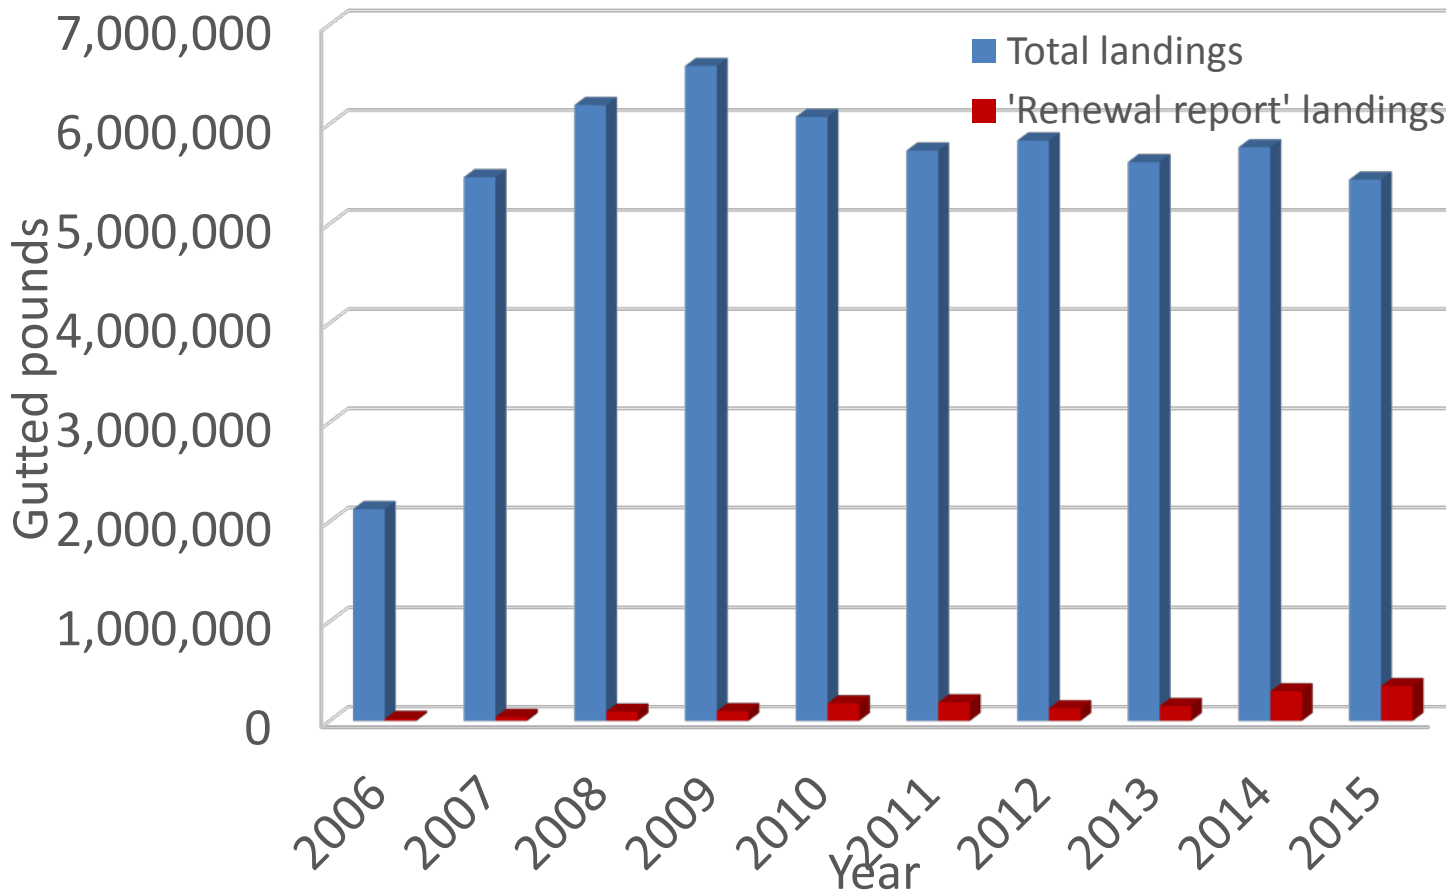

Snapper-grouper landings reported as part of the permit renewal process were roughly 5-30% of the annual landings by those permit holders

Coastal Vessel Permits – Snapper Grouper

Snapper/grouper landings

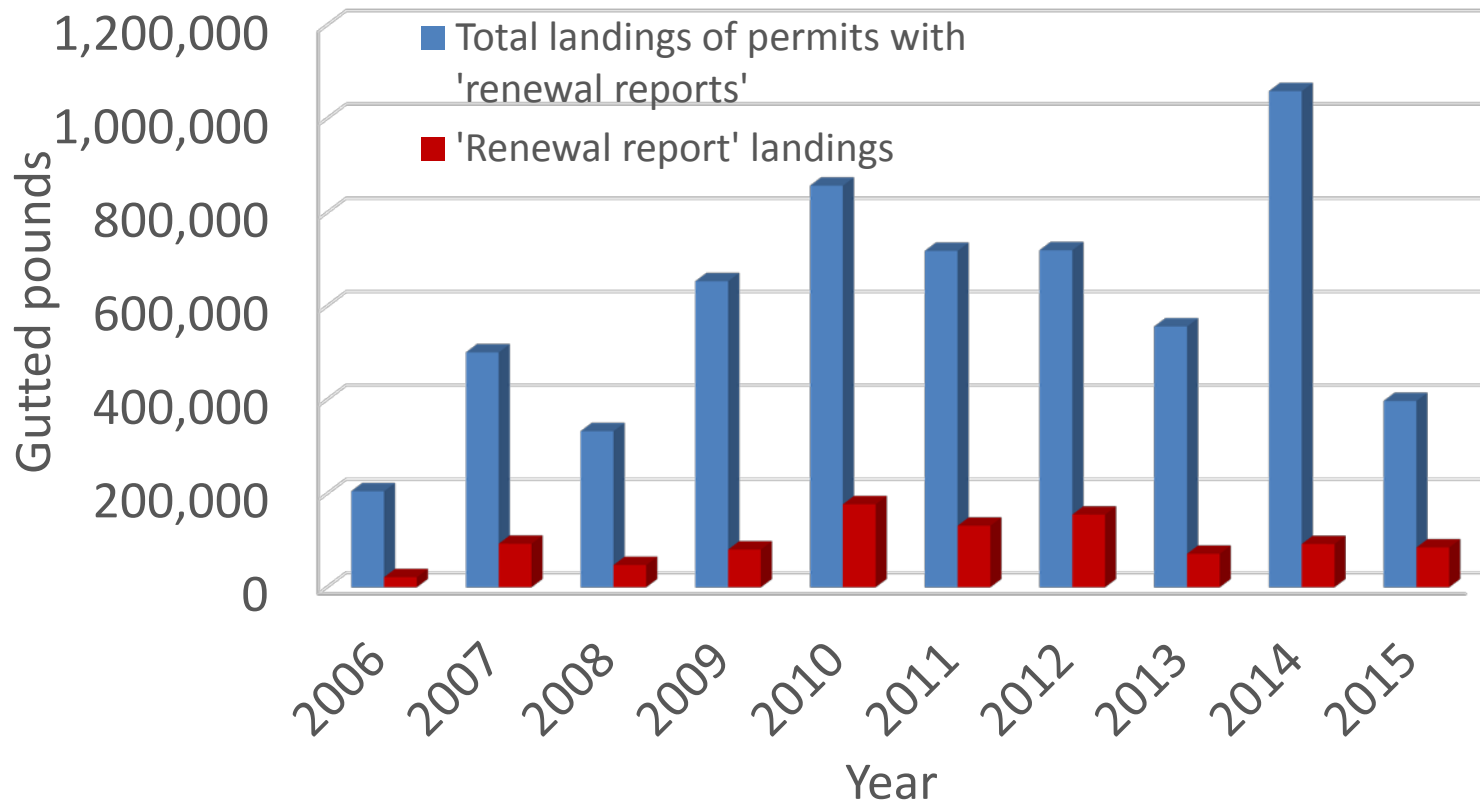

Snapper-grouper landings reported as part of the permit renewal process were a small fraction of total landings

Coastal Vessel Permits - Coastal Migratory Pelagic Species

Coastal Migratory Pelagics landings- 'renewal report' permits

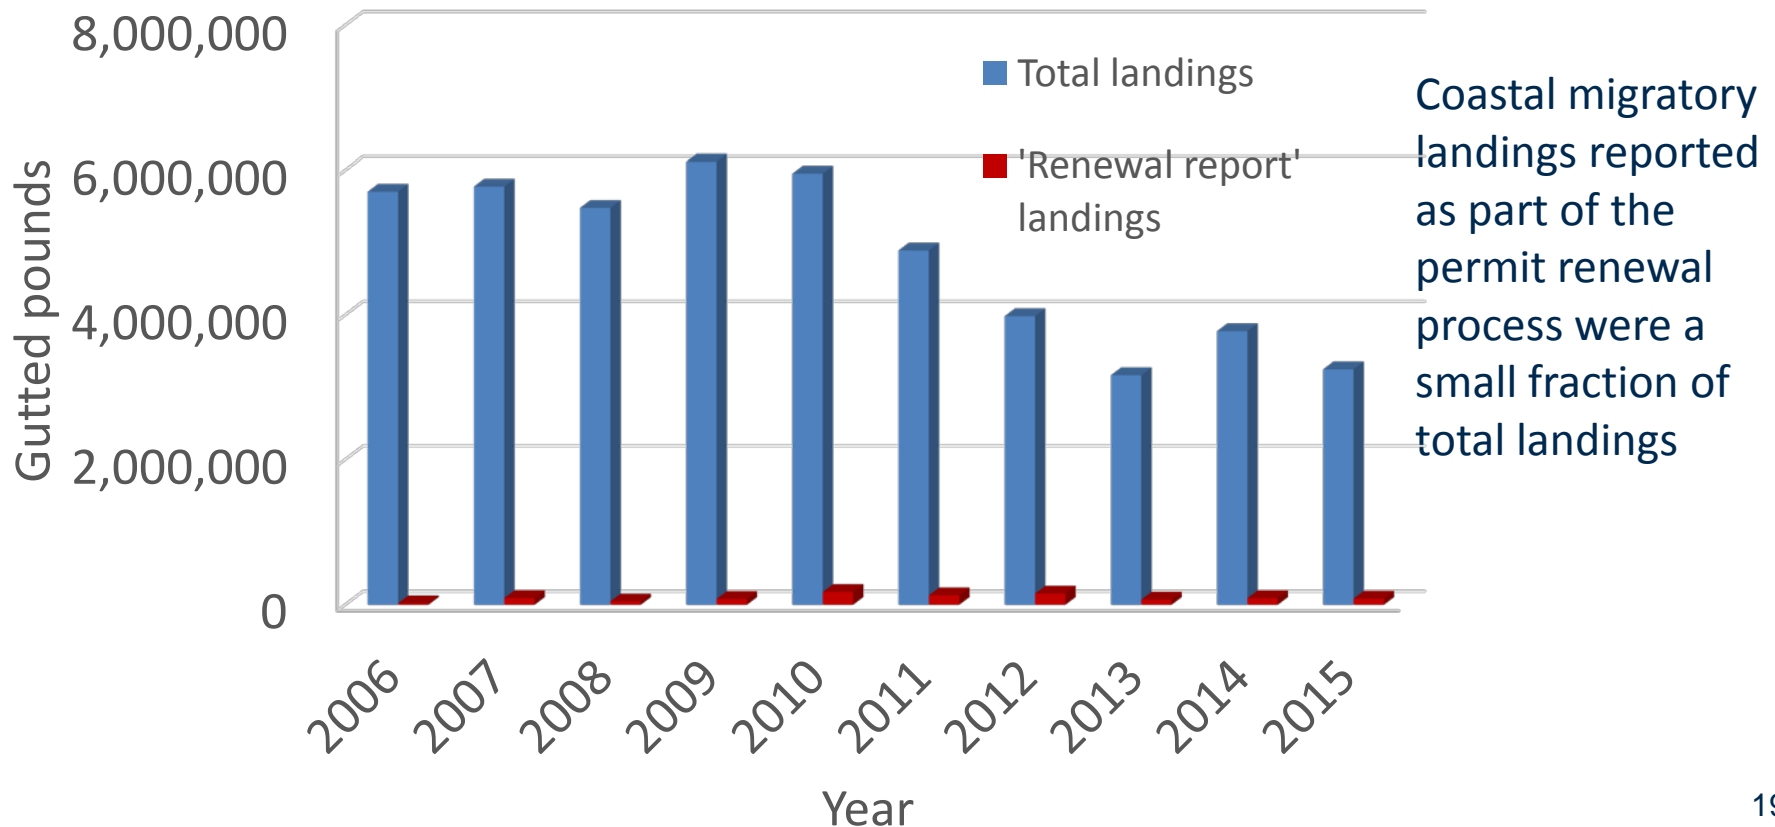

Coastal migratory landings reported as part of the permit renewal process were roughly 5-25% of the annual landings by those permit holders

Coastal Vessel Permits - Coastal Migratory Pelagic Species

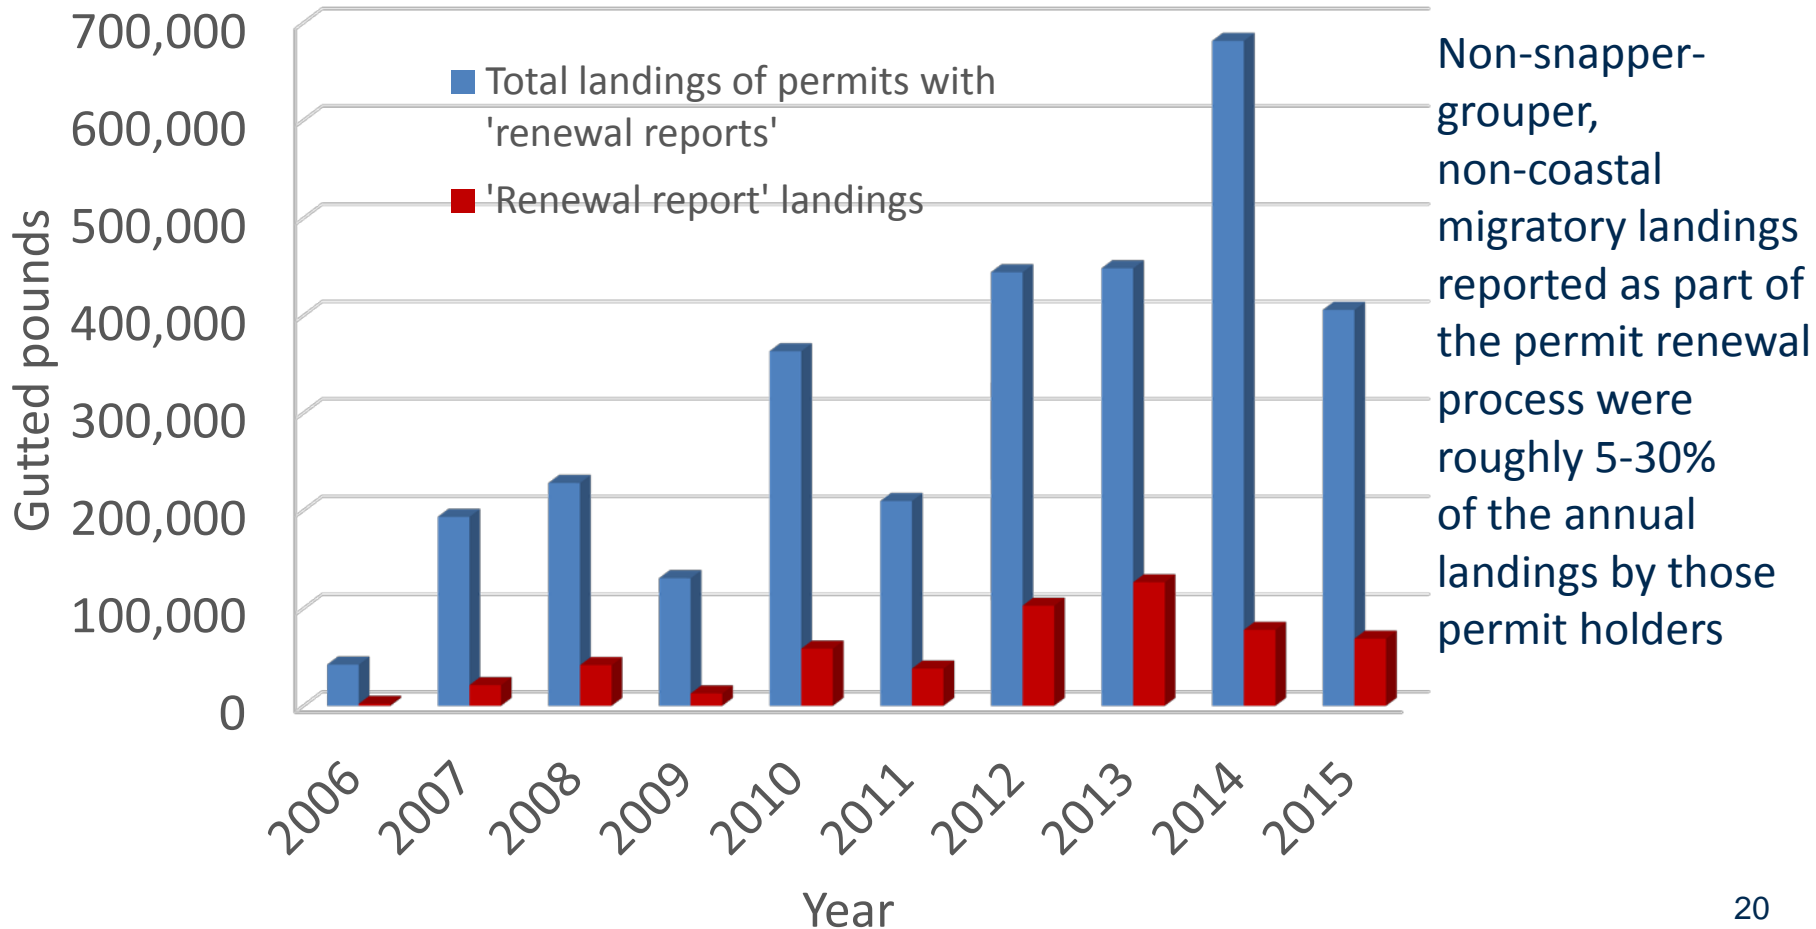

Coastal Migratory Pelagics landings

Coastal Vessel Permits – Other Species

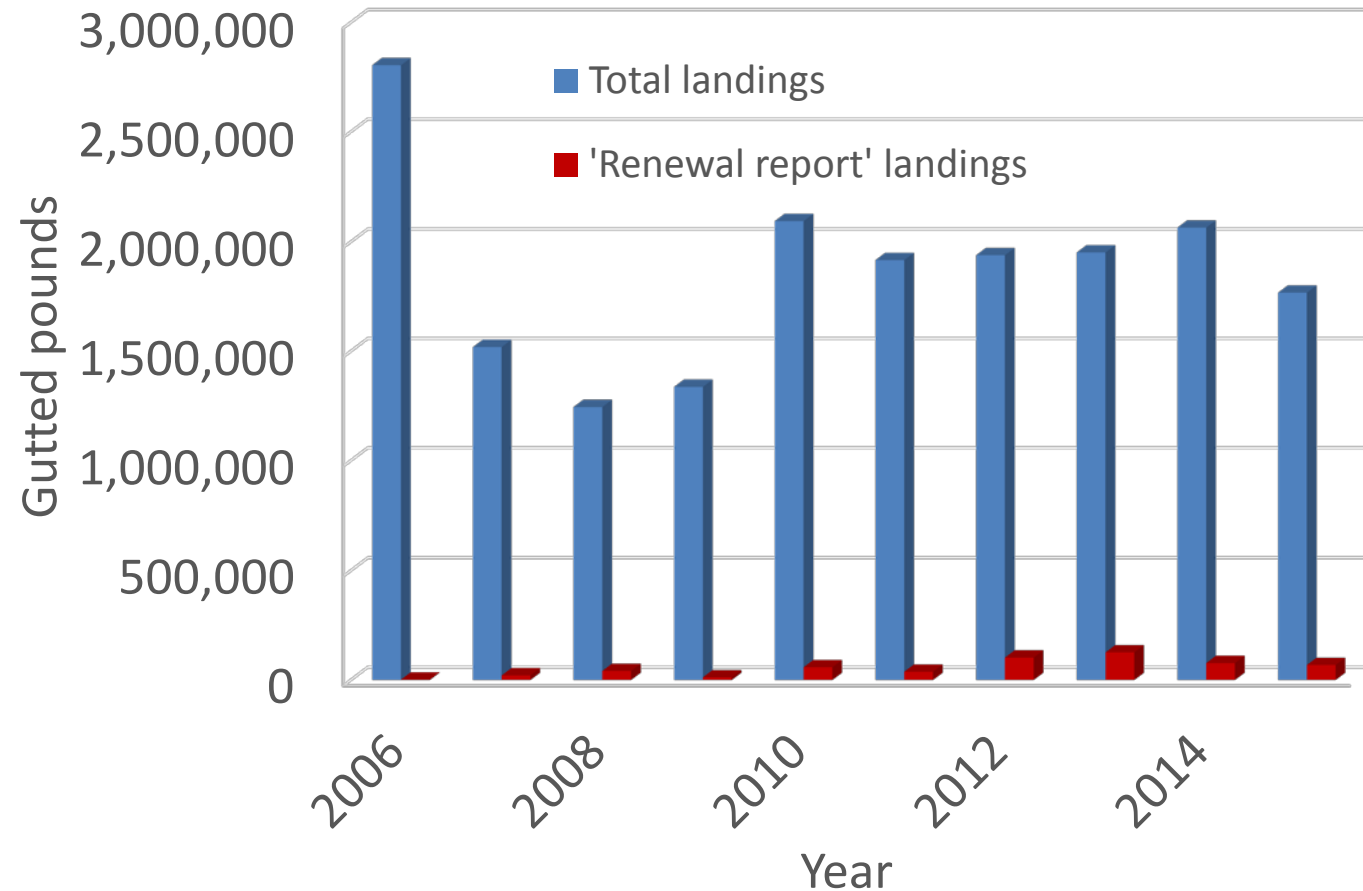

Other species landings- 'renewal report' permits

Coastal Vessel Permits – Other Species

Other species landings

Non-snapper-grouper, non-coastal migratory landings reported as part of the permit renewal process were a small fraction of total landings by those permit holders
