

Socio-Economic Profile of Fisheries for Species Managed by the South Atlantic Fishery Management Council

Socioeconomic Panel Meeting Charleston, South Carolina February 2018

Purpose

- To provide comprehensive information on South Atlantic Council managed species, including:
 - Communities
 - Fishing trends
 - Imports
 - Infrastructure
 - Safety
- Enhancing the socioeconomic sections of the FEP to provide a more comprehensive understanding of the human environment.

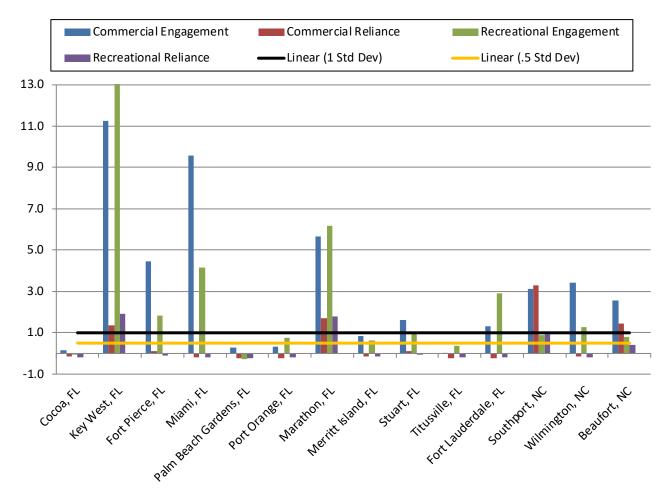

Description of Major Fishing Communities

Top fifteen South Atlantic communities ranked by pounds and value regional quotient (RQ) of king mackerel.

Description of Major Fishing Communities

Key West

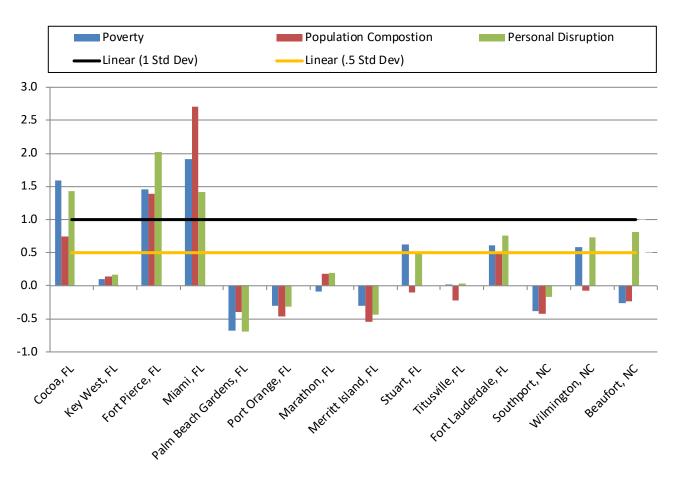

- Population: 24,649
- 52% age 40 or older
- Median Household Income: \$58,494

- Less than 9th grade
- 9th to 12th grade, no diploma
- High school graduate (includes equivalency)
- Some college, no degree
- Associate's degree
- Bachelor's degree
- Graduate or professional degree

Source: U.S. Census Bureau

Description of Major Fishing Communities

Social vulnerability indices for fifteen South Atlantic communities with the top regional quotients for king mackerel.

Gentrification Indices:

- Retire Migration
- Urban Sprawl
- Natural Amenities
- Housing Disruption

• Fishing Trends

1. Landings

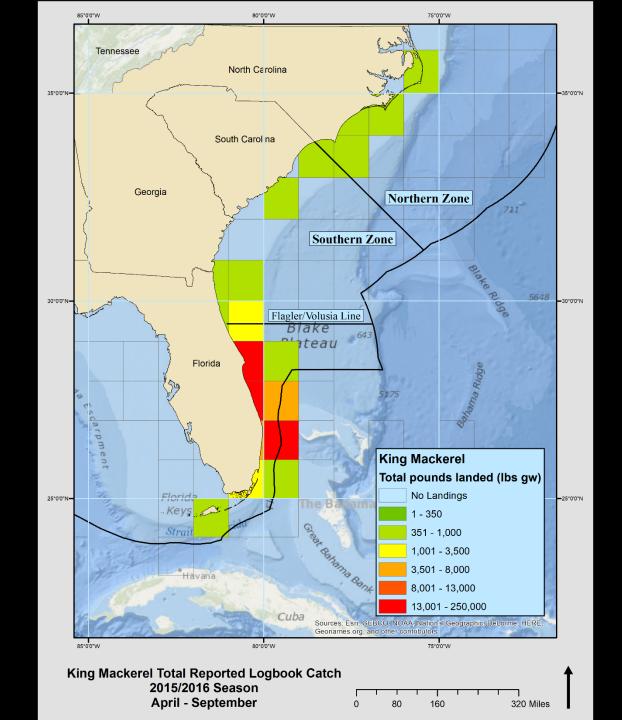

Fishing Voor	Atlantic Migratory Group				
Fishing Year	Pounds	Revenues	Price/lb		
2003/04	1,860,064	\$3,471,749	\$1.87		
2004/05	2,776,748	\$5,487,732	\$1.98		
2005/06	2,249,711	\$4,861,494	\$2.16		
2006/07	2,992,672	\$6,041,002	\$2.02		
2007/08	2,664,751	\$5,734,915	\$2.15		
2008/09	3,105,889	\$6,114,044	\$1.97		
2009/10	3,561,139	\$6,506,967	\$1.83		
2010/11	3,402,677	\$6,118,822	\$1.80		
2011/12	2,052,139	\$5,048,520	\$2.46		
2012/13	1,346,459	\$3,612,517	\$2.68		
2013/14	1,141,601	\$3,274,106	\$2.87		
Avg (2000-14)	2,351,642	\$4,965,704	\$2.11		
Avg (2009-14)	2,300,803	\$4,912,186	\$2.13		

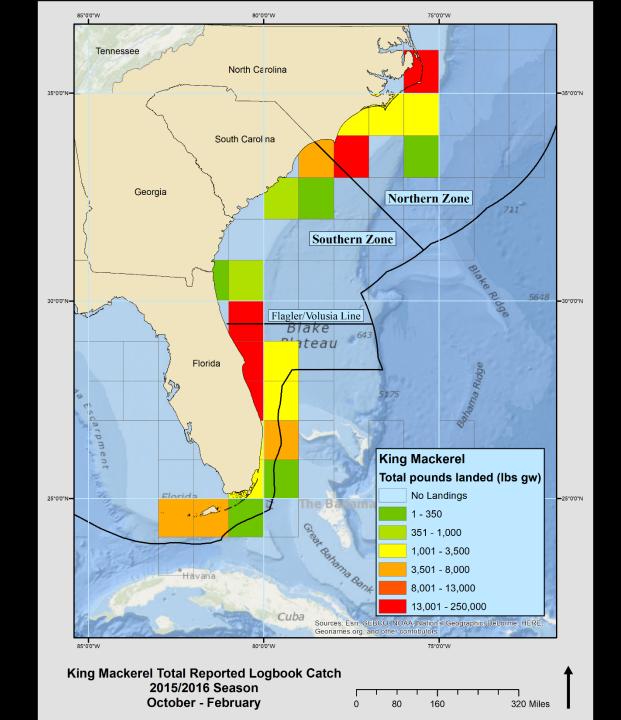

Commercial king mackerel landings, dockside revenues, and price per pound by migratory group, 2000/01-2013/14. Revenues and price per pound are in 2014 dollars.

- Regional/State breakdown
- By gear
- Seasonality

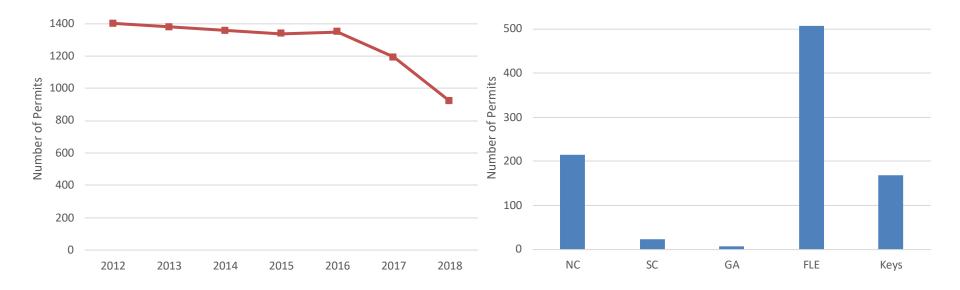

- Fishing Trends
- Vessel Characteristics
 - Average age of commercial king mackerel vessels.
 - 2006: 20 years
 - 2016: 24 years

Commercial King Mackerel Vessels by Size *Source*: SATL Logbook Data

- Fishing Trends
- 1. SAFMC-related Permits

Limited Access Commercial King Mackerel Permits by year (2012-2018) and by state (2018). *Source:* SERO Permits Page

- Imports
 - In 2012, imports of *all* mackerel species (fresh, frozen, salted, smoked) were approximately 44.18 million pounds valued at approximately \$64.97 million (2014 dollars).
 - Domestic production: 138.03 mp (all mackerel) valued at approximately \$37.97 million.

Question for Discussion

- The intent of this report is to provide a "snapshot" of SAFMC managed fisheries. What sort of timeframe would be sufficient? Is the most recent 5 years sufficient?
- Which FMPs should take priority?

Section 2: Chapters by Region

- * Only for stations in the South Atlantic region.
- Description of Major Fishing Communities
 - As identified in the FMP chapters.
- Fishing Trends
 - Same as FMP chapters, but summarized by state.

Section 2: Chapters by Region

- Infrastructure
 - Mapping of dealer locations vs. homeport locations.
 - Fishery Performance Reports qualitative discussion of fishability.
 - Other?

Section 2: Chapters by Region

- Safety at Sea
 - Investigation data: Casualty summary information for USCG investigations involving commercial fishing vessel casualties, personnel injuries or pollution.
 - Events data : identifies a series of events making up the casualty of commercial fishing vessels.
 - PCAS data: personnel casualty and injuries data on commercial fishing vessel and drive trips.
 - Pollution: spill data records for commercial fishing vessels.

Questions for Discussion

- Is there other readily available (i.e. no primary research required) data sources that could be used to show the distribution of fishing infrastructure?
- Is there other readily available information not included in the outline that could help better describe the social and economic characteristics of SAFMC managed fisheries?
- Are there another analyses that could provide insight into the social and economic characteristics of SAFMC managed fisheries?
