2020	O	Scamp, Gulf + SA	Operational	2018	Late 2020	SEFSC
	O	Atlantic Cobia	Operational	2019	Late 2020	SEFSC

1. Completion dates for projects after 2017 are tentative.
2. Stocks to be included in the MRIP Revision assessments are Red Snapper, Red Grouper, Blueline Tilefish, and Black Sea Bass.
3. There has been a recommendation to delay the MRIP revision assessments to late 2018 to allow inclusion of three years of side-by-side comparisons in the calibration effort (2015-2017) and to address delays in the calibration process and revised data availability. At their March 2017 meeting, the SAFMC requested that the SEDAR Steering Committee consider replacing the planned MRIP Revision Assessments in 2017 with a standard assessment of Golden Tilefish. This request will be discussed at the May 2017 SEDAR Steering Committee meeting.
