

McIntosh County Academy SkillsUSA team represented the MCA Commercial fisheries pathway at the National Leadership and Skills Conference.

Charles “Luke” Todd won the National Championship in Marine Service Technology (he was also a three-time state champion)

Three students presented their marine recycling project (turning old floats into Christmas décor). The previous year, they presented their marine recycling project of turning old BRDs into table top Christmas trees. They placed 7th overall at the national level.

The MCA SkillsUSA chapter participated in Darien’s annual Blessing of the Fleet street parade. They placed first in the Decorated Car, Truck, & Golf Cart category with a side-by-side decorated to look as a shrimp boat which was pulling a kayak decorated as a shrimp boat with a (human) shrimp on it. One of the fundraisers for the chapter is having a booth at the festival which they sell fresh shrimp salad from to help educate the public on the need to purchase and consume fresh local wild caught seafood.
