## Participate in Community Port Meetings

### SCIENCE

### MANAGEMENT

### COMMUNICATION

### GOVERNANCE

**Please attend and help make a difference in future management of the snapper grouper fishery!**

**NOW IS THE CHANCE TO...**

**Have your IDEAS HEARD at COMMUNITY PORT MEETINGS!**

#### BACKGROUND

The South Atlantic Fishery Management Council is developing a long-term "vision" for managing the snapper grouper fishery. The Council wants to hear from everyone who has an opinion and an interest in the fishery. All stakeholders should be involved in developing this long-term plan in partnership with the Council.

#### PURPOSE of PORT MEETINGS

The Council is looking for fresh ideas and strategies to reach the goals for the fishery. No one knows the fishery better than those that interact with it regularly. The Council needs you to let them know what is working, what is not, and what they can do to improve management.

#### PORT MEETINGS - Structure

The Council will hold port meetings throughout the region to interact one-on-one and listen to ideas.

Please **DO YOUR PART** and **GET INVOLVED!**

The meetings will be a series of facilitated discussions with different sectors including:

1. Commercial
2. Recreational/For-Hire
3. General Fisheries Interests (chefs, restaurants, tourism, hospitality, etc.)

**Meetings will be held from February through April 2014 and will run about 2-hours in length.**

#### QUESTIONS to CONSIDER FOR DISCUSSIONS

The Council wants to know:

*What **new strategies** should be considered to collect **better science**? **Manage** the fishery better? **Improve communication** with stakeholders?*

*What **strategies** have you thought about that could **fix an issue** that the Council has not considered before?*

#### GET INVOLVED

**To participate in one of these meetings, or possibly host one in your community, please contact:**
