

MAGNUSON – STEVENS ACT/NEPA SCOPING DOCUMENT

**Amendment 35 to the Fishery Management Plan
For the Snapper Grouper Fishery of the South Atlantic Region:
Remove Black Snapper, Dog Snapper,
Mahogany Snapper, & School Master
from the Snapper Grouper FMU**

JULY 14, 2014

Revised JULY 21, 2014

A publication of the South Atlantic Fishery Management Council pursuant to
National Oceanic and Atmospheric Administration Award Number NA05NMF4410004

BACKGROUND – WHY ARE WE HERE?

- 1. Landings of black snapper, dog snapper, mahogany snapper, and school master are very low especially in states other than Florida** – landings data for these 4 species is discussed in **Appendix C**.
- 2. South Atlantic Council has removed other species** – The South Atlantic Council removed 13 species from the Snapper Grouper FMU through the Comprehensive ACL Amendment (SAFMC 2011) due to low landings and the high percentage of landings in Florida state waters. The South Atlantic Council also removed blue runner from the Snapper Grouper FMP through Amendment 27 (SAFMC 2013) due in part to the large percentage of landings (99%) in waters off Florida and the fact that the State of Florida was willing to extend existing regulations into federal waters and put in place any other management measures the state deems appropriate for the sustainable management of the species.
- 3. Gulf Council removed these species from the Reef Fish FMU in 2011** – The Gulf of Mexico Fishery Management Council removed these 4 species and Nassau grouper from their Reef Fish Fishery Management Unit in their Final Generic Annual Catch Limit/Accountability Measures Amendment dated September 2011 (GMFMC 2011) due to low landings. It was agreed that the South Atlantic Council would assume responsibility for managing Nassau Grouper in the Gulf and this was done in Amendment 27 (SAFMC 2013).
- 4. So who would manage these species?**
 - a. Representatives from the State of Florida have requested the South Atlantic Council remove these 4 species from the Snapper Grouper FMP.
 - b. Florida regulations would be extended into federal waters off Florida. The State of Florida is willing to extend existing regulations into federal waters and put in place any other management measures the state deems appropriate for the sustainable management of these species.

PURPOSE & NEED FOR ACTION

Purpose: The purpose of Amendment 35 is to: remove 4 species from the Snapper Grouper Fishery Management Unit (FMU) that do not need federal management. Taking into account mandated specifications to provide ACLs and AMs for species in a fishery management plan other than annual stocks or designated ecosystem component species, the Council is simplifying its system of ACLs by removing some of the less frequently landed species that are not in need of federal management.

Need: The need for Amendment 35 is to: Simplify federal management without reducing the protection for 4 species rarely caught in states other than Florida.

The Council is considering the following actions in Amendment 35:

- Remove the following 4 species from the Snapper Grouper FMU:
 - Black Snapper (*Apsilus dentatus*)
 - Dog Snapper (*Lutjanus jocu*)
 - Mahogany Snapper (*Lutjanus mahogoni*)
 - Schoolmaster (*Lutjanus apodus*)

What Next?

Scoping meetings for Amendment 35 will be held as shown below. The scoping document, PowerPoint presentation, and video presentation will be made available on the Council's website prior to the scoping meetings. An informal question/answer webinar will be held on July 30, 2014 beginning at 6 p.m.

The scoping meetings will begin at 4 p.m. and end at 7 p.m.

<u>August 6, 2014</u> Bay Watch Resort & Conference Center 2701 S. Ocean Boulevard N. Myrtle Beach, SC 29582 Phone: 843-272-4600	<u>August 7, 2014</u> Crystal Coast Civic Center 3505 Arendell Street Morehead City, NC 28557 Phone: 252-247-3883
<u>August 11, 2014</u> Key West Marriott Beachside 3841 North Roosevelt Boulevard Key West, FL 33040 Phone: 305-296-8100	<u>August 12, 2014</u> Hilton Cocoa Beach Oceanfront 1550 North Atlantic Ave. Cocoa Beach, FL 32931 Phone: 321-799-0003
<u>August 13, 2014</u> Wyndham Jacksonville Riverwalk 1515 Prudential Drive Jacksonville, FL 32207 Phone: 904-396-5100	<u>August 14, 2014</u> Mighty Eighth Air Force Museum 175 Bourne Avenue Pooler, GA 31322 Phone: 912-743-8888

Written comments must be received by 5 P.M. on August 18, 2014. All comments will be considered by the Council in drafting Snapper Grouper Amendment 35. There will be a number of opportunities to provide public input if the Council moves forward to develop an amendment. A simplified schematic of the Council process is presented in **Appendix B**.

Appendix B. A Simplified Schematic of the Council Process for this amendment.

Appendix C. Landings data for these 4 specie off NC, SC, GA, and FL

Note: The bulk of commercial landings and headboat landings for these species are confidential and cannot be presented. A general discussion for each species is presented to give an idea of the level of landings for each species.

Source: Mike Errigo, SAFMC Staff, compiled 1986 through 2012 landings from the NMFS SERO ACL Database.

Black Snapper

Total landings (recreational and commercial) of black snapper were 0 pounds whole weight (lb ww) from 1986 through 1990; less than 500 lb ww in 1991 and 1992; less than 5,000 lb ww in 1993 and 1994; less than 600 lb ww with some years of 0 lb ww from 1995 through 2010; and 0 lb ww in 2011 and 2012. There were no landings of black snapper in Georgia through North Carolina from 1986 through 2012.

Dog Snapper

Total landings (recreational and commercial) of dog snapper were less than 8,000 pounds whole weight (lb ww) from 1986 through 2012 except 2007 when landings increased to less than 25,000 lb ww. Total landings in Georgia through North Carolina from 1986 through 2005 were 0 lb ww except 2000 when total landings were less than 6,000 lb ww; from 2006 through 2012, total landings were less than 400 lb ww.

Mahogany Snapper

Total landings (recreational and commercial) of mahogany snapper were less than 600 pounds whole weight (lb ww) from 1986 through 2012 except 1999 and 2007 when landings increased to less than 4,000 lb ww. There were no landings of mahogany snapper in Georgia through North Carolina from 1986 through 2012.

Schoolmaster

Total landings (recreational and commercial) of schoolmaster were less than 15,000 pounds whole weight (lb ww) from 1986 through 2012. There were no landings of schoolmaster in Georgia through North Carolina from 1986 through 2012 except 1995 when less than 5 lb ww were landed.
