d. The trip limit for golden tilefish was reduced to 300 lbs gutted weight on March 18, 2010, and the fishery closed on April 12, 2010.

h. The Dolphin Wahoo Fishery Management Plan established a 1.5 million-pound cap for the dolphin commercial fishery for both northeast and southern Atlantic regions. During January 1 through August 31, 2010, 31.79% of the 1.5 million-pound cap was landed (476,788 pounds).

i. Octocoral landings are reported twice a year with final landings reported by May of the next year; therefore, these are the total landings for both Atlantic (20 trips) and Gulf (28 trips) in federal waters for 2010, reported in number of colonies.
