

SHRIMP WORKGROUP UPDATES

JUNE 2026

Source: Andy Murch, sharksandrays.com

March 2026 Meeting

- This meeting introduced workgroup members to each other and their expertise relevant to the workgroup.
- The group reviewed the ESA Section 7, ESA/MSA Integration Policy, and the BiOp.
- Finally, the group went through a list of questions to help gather needed information and possible presenters for the next meeting.

Upcoming Meetings

- The second meeting is scheduled for June 30th.
- For this meeting, staff has planned to invite several experts to present the information requested during the first meeting.
- This information review will be used to inform a list of possible options for consideration to reduce interactions between the ESA species and the shrimp fishery.
- The third meeting will be used to develop an action plan
- The group has asked about holding an in-person meeting.
