OVERVIEW

Full Council Session I

1. **Reports (*Attachments 1a-1c & LE AP Report*)**

Description: Representatives will provide reports to the Council. The LE AP Chair will focus on items not included under committee agendas.

2. **Best Fishing Practices and 2024 Outreach Update (*Attachments 2a and 2b*)**

Description: Staff will provide an update on the ‘What It Means to Me’ video project and the upcoming Best Fishing Practices Master Volunteer Program. Additionally, staff will update the Council on completed SAFMC and Sea Grant outreach activities for 2024, and what is planned for the upcoming months.

Required Council Action: None

3. **Potential Modifications to the Southeast For-Hire Integrated Electronic Reporting (SEFHIER) Program (*Attachments 3a-3c & LE AP Report*)**

Description: In December 2023 the Council approved the following motion: *Initiate an action to modify SEFHIER to improve compliance, strengthen reporting requirements, and explore validation.* To inform discussion on which action(s) may be appropriate under the Council’s purview, three items will be provided: presentations focusing on compliance in the South Carolina for-hire reporting program and the NMFS’ Southeast Region Headboat Survey and an additional update from the SEFHIER program based on Council feedback from the December 2023 meeting.

Required Council Action: Discuss whether a plan amendment would be the appropriate means to improve the SEFHIER program. Discuss other actions the Council or NMFS (or both) could take to improve reporting compliance in the for-hire sector.

4. **Consideration of Limited-Entry in South Atlantic For-Hire Fisheries (*Attachment 4*)**

Description: In December 2023, the Council directed staff to initiate an amendment to consider a limited entry program for the for-hire components of the Snapper Grouper, Dolphin Wahoo, and Coastal Migratory Pelagics fisheries. The latter already operates under limited entry in the Gulf of Mexico. A control date of December 8, 2023, was requested. The Council also stipulated that *federal permit holders that have not reported snapper-grouper, coastal migratory pelagic, and/or dolphin and wahoo catch from the South Atlantic to the Southeast For-Hire Integrated Electronic Reporting program on or prior to December 5, 2023, will not be assured of future access should a management regime that limits participation in the sector be prepared and implemented.*

To inform discussion on next steps, Council staff gathered available information on the number of permits for the three fisheries from 2008 through 2020 (*Attachment 4*). Subsequent years of data are not currently available due to issues affecting the electronic permits system at the Southeast Regional Office. Additionally, staff summarized information from Snapper Grouper Amendment 47, which considered implementing a moratorium on for-hire permits in the Snapper Grouper fishery.

Required Council Action: Provide guidance on how the Council would like to move forward with a for-hire limited entry amendment, including topics that should be addressed in a scoping document and additional information that should be gathered to aid the Council's decision-making process.
