

The current SAFMC Citizen Science vision, mission, and goals are below along with some of the program 'values' identified through the original Program Blueprint. There are also links to the CitSci SOPPS and CitSci Blueprint docs.

**Vision Statement:** Produce data that will support and improve fisheries management.

**Mission Statement:** Improve information for fisheries management through collaborative science.

#### Program Goals

- **GOAL 1:** Design, implement, and sustain a program framework to guide the development of projects that support fishery management decision making.
- **GOAL 2:** Facilitate development of individual projects to address specific research priorities.
- **GOAL 3:** Ensure that data collected by projects are accessible, robust, and fit for purpose.
- **GOAL 4:** Foster mutual learning, collaboration, and program engagement.

#### Values (from CitSci Program Blueprint)

Empower	Reliable
Include	Trust
Engage	Mutual
Respect

#### **BRAINSTORMING IDEAS TO REFINE VISION AND/OR MISSION**

**\*\*Please add your ideas to refine the vision or mission statements below.**

#### **Vision Statement:**

Building science and trust one project at a time.

More science and better fishing through more data.

Building science/data and trust among stakeholders, managers, and scientists.

Stakeholders and scientists building trust and information, one project at a time.

#### **Mission Statement:**

Improving information for fisheries management through collaborative science
