

TAB 1A

Gulf and South Atlantic Data Collection Motions

Purpose and Need

South Atlantic Council

MOTION #1: APPROVE THE PURPOSE AS MODIFIED:

The *purpose* of the generic modifications to charter vessel and headboat reporting requirements amendment is to increase the accuracy and timeliness of landings, discards, effort and socio-economic data of federally permitted for-hire vessels participating in the Gulf of Mexico and South Atlantic managed fisheries.

APPROVED BY SAFMC COMMITTEE

MOTION #2: APPROVE THE NEED AS MODIFIED:

The *need* for this action is to improve charter vessel and headboat fishery data used for management and to improve monitoring and compliance of federally permitted for-hire vessels in the Gulf of Mexico and South Atlantic managed fisheries.

APPROVED BY SAFMC COMMITTEE

Gulf Council

The Gulf Council did not review the purpose and need during committee and will provide review and comment during the joint meeting.

Action 1: Charter vessel reporting requirements

South Atlantic Council

**MOTION #3: ACCEPT THE IPT RECOMMENDED WORDING FOR ACTION 1 AND THE ALTERNATIVES
APPROVED BY SAFMC COMMITTEE**

South Atlantic Council Direction to Staff/IPT:

- Add sample forms of minimum data elements based on the current requirements in the SC and Headboat logbook programs and the proposed requirements for the NC logbook program.
- Add sample data forms for additional data elements (e.g., discards at specific sites, socio-economic data, etc.).
- Under Compliance Measure indicate that the timing would be Sunday or Tuesday based on the alternative chosen.

Action 1: Modify Frequency and Mechanism of Data Reporting Requirements for Charter Vessel Data Reporting Requirements for Gulf Reef Fish, South Atlantic Snapper Grouper, Coastal Migratory Pelagics, and Atlantic Dolphin and Wahoo Fishery Management Plans

Alternative 1 (No Action). Retain existing permits and data reporting systems for charter vessels. Currently, the owner or operator of a charter vessel for which a charter vessel/headboat permit for Gulf or South Atlantic coastal migratory pelagic fish, Gulf reef fish, South Atlantic snapper grouper, or Atlantic dolphin and wahoo has been issued, or whose vessel fishes for or lands such coastal migratory pelagic fish, reef fish, snapper grouper, or Atlantic dolphin or wahoo in or from state waters adjoining the applicable Gulf, South Atlantic, or Atlantic exclusive economic zone (EEZ), and who is selected to report by the Science and Research Director (SRD) must maintain a fishing record for each trip, or a portion of such trips as specified by the SRD, on forms provided by the SRD. Completed fishing records must be submitted to the SRD weekly, postmarked no later than 7 days after the end of each week (Sunday). Information to be reported is indicated on the form and its accompanying instructions.

For South Atlantic snapper grouper, charter vessels selected to report by the SRD must participate in the NMFS-sponsored electronic logbook and/or video monitoring program as directed by the SRD. Completed fishing records may be required weekly or daily, as directed by the SRD.

Alternative 2. Require that federally permitted charter vessels submit fishing records to the Science and Research Director (SRD) weekly or at intervals shorter than a week if notified by the SRD via electronic reporting (via NMFS approved hardware/software). Weekly = Tuesday following each fishing week.

Alternative 3. Require that federally permitted charter vessels submit fishing records to the Science and Research Director (SRD) daily via electronic reporting (via NMFS approved hardware/software). Daily = by noon of the following day.

Alternative 4. Require that federally permitted charter vessels submit fishing records to the Science and Research Director (SRD) for each trip via electronic reporting (via NMFS approved hardware/software) prior to arriving at the dock.

2.1 Action 1: Modify Frequency and Mechanism of Data Reporting for Charter Vessels Harvesting Gulf Reef Fish, South Atlantic Snapper Grouper, South Atlantic Dolphin Wahoo, or Coastal Migratory Pelagics

Alternative 1 (No Action). The owner or operator of a charter vessel for which a charter vessel/headboat permit for Gulf of Mexico (Gulf) or South Atlantic coastal migratory pelagic (CMP) species, Gulf reef fish, South Atlantic snapper grouper, or Atlantic dolphin and wahoo has been issued, or whose vessel fishes for or lands such CMP species, reef fish, snapper grouper, or Atlantic dolphin or wahoo in or from state waters adjoining the applicable Gulf, South Atlantic, or Atlantic exclusive economic zone (EEZ), and who is selected to report by the Science and Research Director (SRD) must maintain a fishing record for each trip, or a portion of such trips as specified by the SRD, on forms provided by the SRD. Completed fishing records must be submitted to the SRD weekly, postmarked no later than 7 days after the end of each week (Sunday). Information to be reported is indicated on the form and its accompanying instructions.

For South Atlantic snapper grouper, charter vessels selected to report by the SRD must participate in the NMFS-sponsored electronic logbook and/or video monitoring program as directed by the SRD. Completed fishing records may be required weekly or daily, as directed by the SRD.

Alternative 2. Require that federally permitted charter vessels submit fishing records to the SRD weekly or at intervals shorter than a week if notified by the SRD via electronic reporting (via NMFS approved hardware/software). Weekly = Tuesday following each fishing week.

Alternative 3. Require that federally permitted charter vessels submit fishing records to the SRD daily via electronic reporting via electronic reporting (via NMFS approved hardware/software). Daily = by noon of the following day.

Alternative 4. Require that federally permitted charter vessels submit fishing records to the SRD for each trip via electronic reporting (via NMFS approved hardware/software) prior to arriving at the dock.

Gulf Council Motion

The Gulf Committee selected **Action 1, Alternative 4** as the **preferred alternative for the Gulf of Mexico**.

Alternative 4 requires that federally permitted charter vessels submit fishing records to the SRD for each trip via electronic reporting (via NMFS approved hardware/software) prior to arriving at the dock.

Action 2: Headboat reporting requirements

South Atlantic Council

**MOTION #4: APPROVE IPT RECOMMENDATION FOR ACTION 2 AND THE ALTERNATIVES WITH DELETING “SOUTH” AND APPROVE FOR DETAILED ANALYSES
APPROVED BY SAFMC COMMITTEE**

Action 2: Modify Frequency and Mechanism of Headboat Data Reporting Requirements for Gulf Reef Fish, South Atlantic Snapper Grouper, Coastal Migratory Pelagics, and South Atlantic Dolphin and Wahoo Fishery Management Plans

Alternative 1 (No Action). Retain existing permits and data reporting systems for headboats. Currently, the owner or operator of a headboat for which a charter vessel/headboat permit for Gulf or South Atlantic coastal migratory pelagic fish, Gulf reef fish, South Atlantic snapper grouper, or Atlantic dolphin and wahoo has been issued, or whose vessel fishes for or lands such coastal migratory pelagic fish, reef fish, snapper grouper, or Atlantic dolphin or wahoo in or from state waters adjoining the applicable Gulf, South Atlantic, or Atlantic exclusive economic zone (EEZ), and who is selected to report by the Science and Research Director (SRD) must submit an electronic fishing record for each trip of all fish harvested via the Southeast Region Headboat Survey. Electronic fishing records must be submitted at weekly intervals (or intervals shorter than a week if notified by the SRD) by 11:59 p.m., local time, the Sunday following a reporting week. If no fishing activity occurred during a reporting week, an electronic report so stating must be submitted for that reporting week by 11:59 p.m., local time, the Sunday following a reporting week.

During catastrophic conditions the use of paper forms for basic required functions may be authorized by the RA by publication of timely notice. During catastrophic conditions, the RA also has the authority to waive or modify reporting time requirements.

An electronic report not received within the time specified is delinquent. A delinquent report automatically results in a prohibition on harvesting or possessing the applicable species, regardless of any additional notification to the delinquent owner and operator by NMFS. This prohibition is applicable until all required and delinquent reports have been submitted and received by NMFS according to the reporting requirements.

For South Atlantic snapper grouper, headboats selected to report by the SRD must participate in the NMFS-sponsored electronic logbook and/or video monitoring program as directed by the SRD. Completed fishing records may be required weekly or daily, as directed by the SRD.

Alternative 2. Require that headboats submit fishing records to the Science and Research Director (SRD) weekly or at intervals shorter than a week if notified by the SRD via electronic

reporting (via NMFS approved hardware/software). Weekly = Tuesday following each fishing week.

Alternative 3. Require that headboats submit fishing records to the Science and Research Director (SRD) daily via electronic reporting (via NMFS approved hardware/software). Daily = by noon of the following day.

Alternative 4. Require that headboats submit fishing records to the Science and Research Director (SRD) for each trip via electronic reporting (via NMFS approved hardware/software) prior to arriving at the dock.

Action 2: Modify Frequency and Mechanism of Data Reporting for Headboats Harvesting Gulf Reef Fish, South Atlantic Snapper Grouper, South Atlantic Dolphin Wahoo, or Coastal Migratory Pelagics

Alternative 1 (No Action). The owner or operator of a headboat for which a charter vessel/headboat permit for Gulf or South Atlantic CMP species, Gulf reef fish, South Atlantic snapper grouper, or Atlantic dolphin and wahoo has been issued, or whose vessel fishes for or lands such CMP species, reef fish, snapper grouper, or Atlantic dolphin or wahoo in or from state waters adjoining the applicable Gulf, South Atlantic, or Atlantic EEZ, and who is selected to report by the SRD must submit an electronic fishing record for each trip of all fish harvested via the SRHS. Electronic fishing records must be submitted at weekly intervals (or intervals shorter than a week if notified by the SRD) by 11:59 p.m., local time, the Sunday following a reporting week. If no fishing activity occurred during a reporting week, an electronic report stating so must be submitted for that reporting week by 11:59 p.m., local time, the Sunday following a reporting week.

During catastrophic conditions, the use of paper forms for basic required functions may be authorized by the RA by publication of timely notice. During catastrophic conditions, the RA also has the authority to waive or modify reporting time requirements.

When an electronic report is not received within the time specified, it is delinquent. A delinquent report automatically results in a prohibition on harvesting or possessing the applicable species, regardless of any additional notification to the delinquent owner and operator by NMFS. This prohibition is applicable until all required and delinquent reports have been submitted and received by NMFS according to the reporting requirements.

For South Atlantic snapper grouper, headboats selected to report by the SRD must participate in the NMFS-sponsored electronic logbook and/or video monitoring program, as directed by the SRD. Completed fishing records may be required weekly or daily, as directed by the SRD.

Alternative 2. Require that headboats submit fishing records to the SRD weekly or at intervals shorter than a week if notified by the SRD via electronic reporting (via NMFS approved hardware/software). Weekly = Tuesday following each fishing week.

Alternative 3. Require that headboats submit fishing records to the SRD daily via electronic reporting (via NMFS approved hardware/software). Daily = by noon of the following day.

Alternative 4. Require that headboats submit fishing records to the SRD for each trip via electronic reporting (via NMFS approved hardware/software) prior to arriving at the dock.

Gulf Council Motion

The Gulf Committee selected **Action 2, Alternative 4** as the **preferred alternative for the Gulf of Mexico**.

Alternative 4 requires that headboats submit fishing records to the SRD for each trip via electronic reporting (via NMFS approved hardware/software) prior to arriving at the dock

Action 3: For-hire location reporting requirements

South Atlantic Council

MOTION #5: DIRECT STAFF TO ADD AN ALTERNATIVE TO ACTION 3 THAT WOULD ALLOW FOR CHARTER VESSELS TO REPORT LOCATION MANUALLY BY LATITUDE/LONGITUDE IN DEGREES AND MINUTES OR BY CLICKING ON A HEADBOAT GRID

APPROVED BY SAFMC COMMITTEE

Note: Draft Alternative 4 has been added (below) to address this motion.

MOTION #6: APPROVE ACTION 3 AND THE ALTERNATIVES AS MODIFIED WITH THE PROPOSED GULF STAFF CHANGES TO THE WORDING
APPROVED BY SAFMC COMMITTEE

Action 3: Modify Electronic Reporting Requirements Gulf Reef Fish, South Atlantic Snapper Grouper, Coastal Migratory Pelagics, and Atlantic Dolphin and Wahoo Fishery Management Plans to Require Vessel or Catch Location Reporting

Alternative 1 (No Action). Charter vessels participating in the For-Hire survey are required to report area fished (inshore, state, or federal waters), if selected as part of the survey. Headboats participating in the SRHS are required to report latitude and longitude of area fished (degrees and minutes only; within 1 nm² area).

Alternative 2. Require federally permitted for-hire vessels to use a NMFS approved electronic device that automatically records vessel location at specified time intervals for later transmission:

Sub-Alternative 3a. In the Gulf (headboat)

Sub-Alternative 3b. In the Gulf (charter vessel)

Sub-Alternative 3c. In the South Atlantic (headboat)

Sub-Alternative 3d. In the South Atlantic (charter vessel)

Alternative 3. Require federally permitted for-hire vessels to use a NMFS approved Vessel Monitoring System (VMS) to record vessel location at specified time intervals:

Sub-Alternative 3a. In the Gulf of Mexico (headboat)

Sub-Alternative 3b. In the Gulf of Mexico (charter vessel)

Note: This draft alternative address Motion #5 from the South Atlantic committee

Alternative 4. Require federally permitted charter vessels to report location manually by latitude/longitude in degrees and minutes or by clicking on a headboat grid:

Sub-Alternative 4a. In the Gulf (charter vessel)

Sub-Alternative 4b. In the South Atlantic (charter vessel)

Gulf Council

The Gulf Committee discussed Action 3 pertaining to catch location reporting requirements for Gulf and South Atlantic for-hire vessels but did not select a preferred Alternative at this time.

Action 4: For-hire data reporting mechanism and procedure

South Atlantic Council

**MOTION #7: MOVE ACTION 4 AND THE ALTERNATIVES INTO THE DISCUSSION OF THE JOINT AMENDMENT
APPROVED BY SAFMC COMMITTEE**

Gulf Council Motion

For **Action 4**, the Gulf Committee recommends, and I so move to move all of **Action 4** to considered but rejected.

MAFMC AND NEFMC FOR-HIRE VESSEL REPORTING

South Atlantic Council Direction to Staff/IPT:

- Add wording to clarify that we are extending the reporting requirements of this amendment through the Mid-Atlantic and New England Councils' areas for federally permitted for-hire vessels harvesting species managed in our FMPs (Atlantic Dolphin/Wahoo, Coastal Migratory Pelagics, South Atlantic Snapper Grouper, and Gulf Reef Fish).
- Add wording to clarify that we don't want to duplicate reporting by individual vessels; one report submitted to, for example, ACCSP would then be available to each agency needing the data.

**MOTION #8: INCLUDE ADDITIONAL INFORMATION ON DATA ELEMENTS, CLARIFICATION ON HOW NE VESSELS WOULD REPORT WITHOUT DUPLICATE REPORTING AND APPROVE THE JOINT FOR-HIRE REPORTING AMENDMENT, AS MODIFIED, FOR PUBLIC HEARINGS
APPROVED BY SAFMC COMMITTEE**
