The commercial landings are found under Tab 12, Attachment 1.

- The tables show monthly landings since the 2008/09 fishing year. Cumulative landings are shown until the 2012/2013 fishing year. These are landings through June 4, 2014.
- King mackerel landings are lower through May than they were at same time last year.
 - Landings in the 2013/2014 fishing year were lower than any previous year since 2008/09. 30% of the commercial quota was met last year.
- For Spanish mackerel, landings through May of this year are about 90,000 lbs less than they were at this time last year.
- The quota was exceeded by 10% last year.
- For cobia, landings are similar to where they were at this time last year. Overall, 85% of the quota was met last year.
