SAFMC Release

Have a citizen science project idea?

***Share it via the online
Project Idea Portal!***

Ideas will be used to update the
SAFMC's Citizen Science Research
Priorities

SMILE Project

- Partner with divers to collect length info on data limited species
- Laser-mounted Olympus underwater cameras
- Second field season in FL Keys wrapping up
- Data processing & analysis underway
- Conducting survey to better understand demographics, motivations, and barriers of recreational divers

PC: Rusty Hudson

PC: Chuck Griffin

FISHstory

FISHstory by 14 photo providers

FISHstory Photo Archive

Percentage of photos by decade

Percentage of photos by month

FISHstory: Photos for Analyses

Photo Description	Good	Better
Photo Type	Picture taken at the end of a trip displaying harvested catch with anglers	Fish hanging on leaderboard
Photo Date	Year	Month & Day
Photo Location	State	City & Dock
Photo Background	Photo provider name & contact	Vessel name & captain name

FISHstory project re-launched in Zooniverse July 2024!

FISHstory

[ABOUT](#) [CLASSIFY](#) [TALK](#) [COLLECT](#) [RECENTS](#)

Level 3 is now unlocked for all volunteers - so you can keep classifying away and helping us identify and count fish within the photos. Not a fish ID expert? No worries - we have tips and tricks in our tutorials and field guide. Feel free to reach out to our research team via the Talk Boards with any fish ID questions.

FISHSTORY

Filling Fisheries Data Gaps with Historical Dock Photos

[LEARN MORE](#) >

GET STARTED!

Welcome to the FISHstory Project! We have four workflows where you can help us collect information from historic dock photos. Start with LEVEL 1 and unlock additional levels as you classify more photos. If you're not a fish ID expert, no worries! We welcome all and encourage you to use our Field Guide to help identify fish and provide your best guess. Thank you for your participation!

The collection of SAFMC FISHstory information is authorized under the OMB Control Number included in the [Citizen Science & Crowdsourcing Information Collection page](#).

UNLOCKED

5% COMPLETE

LEVEL 3: Classify Red Snapper, Amberjack & Sharks >

2% COMPLETE

LEVEL 4: Classify Dolphinfin, Cobia, Gray Triggerfish & Little Tunny >

LOCKED

Classification almost complete for currently archived photos in Zooniverse

As of March 25, 2025

LEVEL 1: Count Fish and People

Retirement limit: 20

Images retired: 580 / 580

ETC* 0 days

LEVEL 2: Classify King Mackerel, Grouper & Sailfish

Retirement limit: 20

Images retired: 1,054 / 1,054

ETC* 0 days

LEVEL 3: Classify Red Snapper, Amberjack & Sharks

Retirement limit: 20

Images retired: 1,054 / 1,054

ETC* 0 days

LEVEL 4: Classify Dolphinfinh, Cobia, Gray Triggerfish & Little Tunny

Retirement limit: 20

Images retired: 805 / 1,054

Classifications: 20,144 / 21,080

ETC* 10 days

2024 Annual Data Summary

2025 Sea Grant Partnership

2024 Data Summary

Summary includes:

- Release submissions by state & fishing sector
- Species submitted
- Length compositions
- Release treatment by depth
- Shark depredation
- Hook type & location
- 2024 Participant Recognition Milestones

2024 Data Summary: Where Release Submissions Came From

Tracking Relationship Building

A goal of SAFMC Release is to build relationships with fishermen and support engagement in Council process

Beginning to see great relationships forming & Council process engagement

Suggestion brought to us about tracking contact with participants to look for patterns in engagement

1. What modes of contact do you think would be most beneficial to track?
2. What details (without logging any personal information) would be useful to us illustrating the path to relationship-building?

Keep up with projects & the Program!
