By Sector

Participant Retention

- Reduction in submissions began June 2024
- Cited reasons
 - Time/other obligations
 - Weather

Discussion Questions

1. What are possible methods we could use to “reactivate” some of our participants?
2. What motivating aspects of SAFMC Release do you think we should highlight in our communication?

SciFish Platform

www.accsp.org/what-we-do/scifish/

SciFish Introduction

Growing interest in using citizen science, which is a powerful tool to better understand marine fish populations

Vision: To create a citizen science mobile application that encourages and supports the capture and sharing of data on Atlantic coast fisheries.

Develop a citizen science mobile application and menu-driven project builder interface to eliminate need for stand-alone apps and standardize data collection

SciFish Development Drivers

Reduce costs
needed to develop
individual
applications

Reduce time to
create applications
from ground up

Increase
consistency in data
fields and structure

FISHstory Photo Archive

>600 new photos were
digitized and archived in 2023

We're still working to grow
archive

FISHstory: Photos for Analyses

Photo Description	Good	Better
Photo Type	Picture taken at the end of a trip displaying harvested catch with anglers	Fish hanging on leaderboard
Photo Date	Year	Month & Day
Photo Location	State	City & Dock
Photo Background	Photo provider name & contact	Vessel name & captain name

FISHstory project re-launched in Zooniverse July 2024!

FISHstory

[ABOUT](#) [CLASSIFY](#) [TALK](#) [COLLECT](#) [RECENTS](#)

Level 3 is now unlocked for all volunteers - so you can keep classifying away and helping us identify and count fish within the photos. Not a fish ID expert? No worries - we have tips and tricks in our tutorials and field guide. Feel free to reach out to our research team via the Talk Boards with any fish ID questions.

FISHSTORY

Filling Fisheries Data Gaps with Historical Dock Photos

[LEARN MORE](#) >

GET STARTED!

Welcome to the FISHstory Project! We have four workflows where you can help us collect information from historic dock photos. Start with LEVEL 1 and unlock additional levels as you classify more photos. If you're not a fish ID expert, no worries! We welcome all and encourage you to use our Field Guide to help identify fish and provide your best guess. Thank you for your participation!

The collection of SAFMC FISHstory information is authorized under the OMB Control Number included in the [Citizen Science & Crowdsourcing Information Collection page](#).

UNLOCKED

5% COMPLETE

LEVEL 3: Classify Red Snapper, Amberjack & Sharks >

2% COMPLETE

LEVEL 4: Classify Dolphinfin, Cobia, Gray Triggerfish & Little Tunny >

LOCKED

Good participation thus far.....

but still working to recruit volunteers

As of September 26, 2024

LEVEL 1: Count Fish and People

Retirement limit: 20
Images retired: 580 / 580
ETC* 0 days

100% Complete

LEVEL 2: Classify King Mackerel, Grouper & Sailfish

Retirement limit: 20
Images retired: 474 / 474
ETC* 0 days

100% Complete

LEVEL 3: Classify Red Snapper, Amberjack & Sharks

Retirement limit: 20
Images retired: 51 / 474
Classifications: 7,025 / 9,480
ETC* 10 days

74% Complete

LEVEL 4: Classify Dolphinfinh, Cobia, Gray Triggerfish & Little Tunny

Retirement limit: 20
Images retired: 36 / 474
Classifications: 7,609 / 9,480
ETC* 15 days

80% Complete

Fish ID #1

Fish ID #2

**Next step in
photo analysis**

**Validation
Team review of
photos with
volunteer
disagreement**

A SAFMC CitSci Project

FISHstory Discussion Questions

- We are still looking for more historic photos – *especially from the Carolinas and 1980s (all states)*. Are you aware of other individuals or organizations in your area that may be good contacts to gather additional historic fishing photos?
- We need to recruit more individuals with fish ID expertise for our FISHstory Validation Team. Do you have suggestions of individuals or organizations we could contact to join the Validation Team? Would you consider joining the Validation Team?

Share a project idea via the Citizen Science Project Idea Portal!

Ideas will be used to update the
Citizen Science Research Priorities &
to help connect fishermen and
scientists with similar research
interests

CitSci Project Idea Portal Questions

- General contact information
- Association with fishery
- Project idea & how it could improve conservation / management
- Interest in connecting to researchers or industry
- Target volunteers
- Length of project
- Support for project idea

CitSci Project Idea Portal

Discussion Questions

What are the best places to advertise this tool to fishermen?

What would be effective placement so that fishermen would see information when and where they have time to use the tool?

What messaging could encourage fishermen to submit their ideas in the portal?

Citizen Science Advisory Panels

- Participants members of the [CitSci Pool](#) and/or be a member of another Council AP

Operations Committee
Programmatic guidance
3-5 year terms
Meet 2 times per year

Projects Advisory Committee
Research priorities, volunteer engagement, etc.
Members of other Council APs
Term dependent on AP tenure
Meet 1 time per year

Ad-hoc Committees
Typically serve as review for program components
Currently no active ad-hoc committees

Citizen Science Advisory Panels

- Participants members of the [CitSci Pool](#) and/or be a member of another Council AP

Projects Advisory Committee

Research priorities, volunteer engagement, etc.

Members of other Council APs

Term dependent on AP tenure

Meet 1 time per year
