**Technical Support:** Cameron Rhodes ([Cameron.Rhodes@safmc.net](mailto:Cameron.Rhodes@safmc.net))

# **OVERVIEW**

## **Snapper Grouper Advisory Panel**

The AP will approve minutes from the October 2019 meeting and the agenda for the current meeting.

### **1. Fishery Performance Reports for Gag (*Attachment 1a & 1b*)**

**Description:** With input from the AP, Fishery Performance Reports (FPRs) have been developed for several snapper grouper species. The intent of the FPRs is to assemble information from AP members' experience and observations on the water and in the marketplace to complement scientific and landings data. The FPRs will be provided to the SSC, the Socio-Economic Panel (SEP), and the Council to assist in their discussions. Using an online application (<http://data.safmc.net/FPRAll/>) staff will provide an overview of landings trends and other background information and request the AP's input to develop the FPR for Gag. An operational assessment (SEDAR 71) is underway for the Gag stock in the South Atlantic.

**Requested AP Action:** Provide input as appropriate.

### **2. Other Business**

Review approved topics for the AP's November 4-6, 2020 meeting.
