## **Dolphin-Wahoo**

***Southeast Regional Office &  
Southeast Fisheries Science Center***

# Notes on Landings Data

- Landings are summarized using MRIP.
- Landings estimates include data through wave 1, 2019 (January 1 through February 28, 2019)
- All landings include MRIP and also Headboat landings. However, no Headboat landings are available for November 1 to December 31 of 2018, and no Headboat landings for 2019
- 2018 effort data used for generating recreational landings came from the mail survey (Fishing Effort Survey) but were converted to phone survey equivalent landings (Coastal Household Telephone Survey)

# Comparing MRIP CHTS-FES

CHTS = Coastal Household Telephone Survey

FES = Fishing Effort Survey. Mail survey of effort, started in 2018

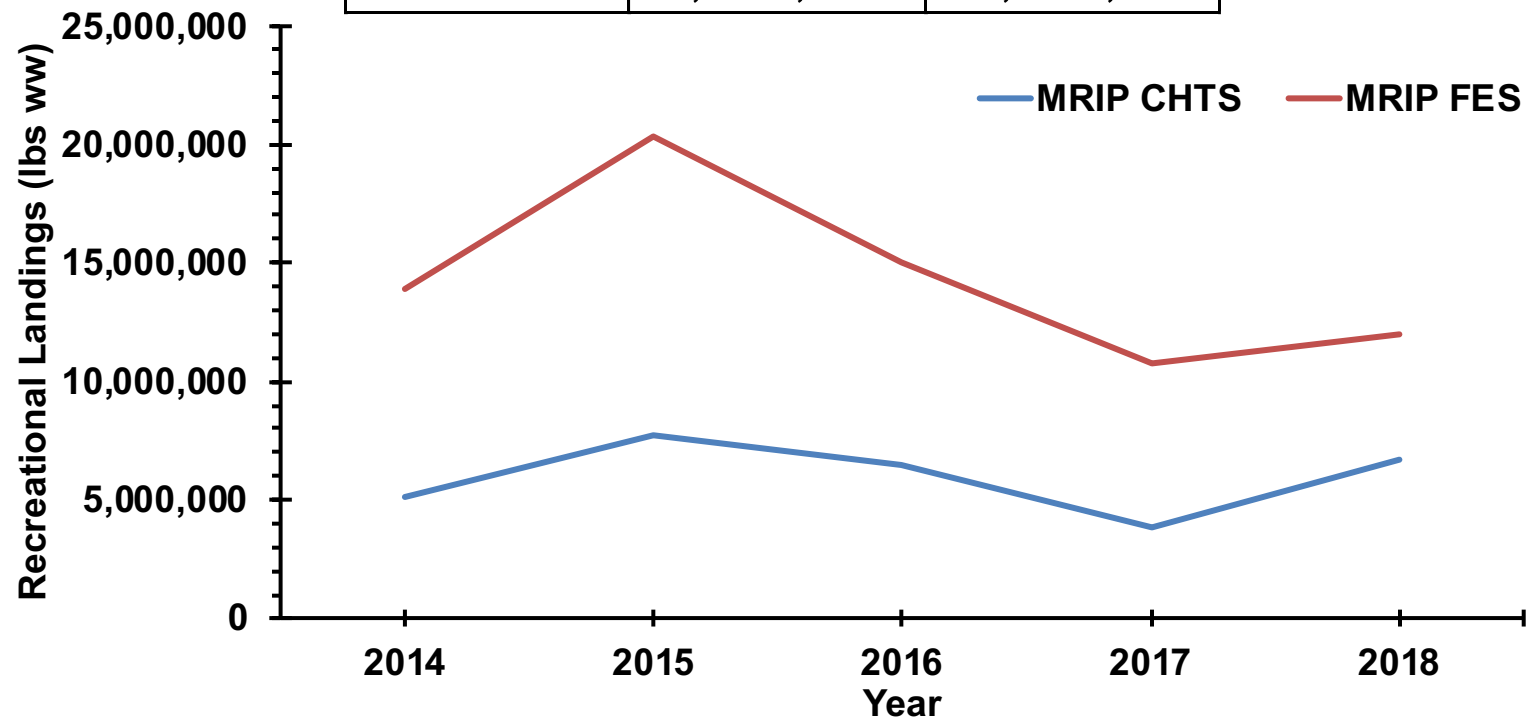

CHTS and FES only estimate effort for private and shore mode. Effort (number of trips) are combined with catch rate to determine landings
