

Coastal Migratory Pelagics Framework Amendment 6 (King Mackerel Trip Limits)

Options Paper

Background

The new regulations for king mackerel established in CMP Amendment 26 became effective on May 11, 2017, including updated commercial trip limits for the Atlantic Southern zone.

Each Atlantic Southern Zone season has a quota and specified trip limits:

- SC/NC line to the Flagler/Volusia county line:
 - 3,500 lbs year-round
- Flagler/Volusia county line to Miami-Dade/Monroe county line:
 - *Season 1* (March 1- September 30): 50 fish for March 1-31; 75 fish for April 1-September 30
 - *Season 2* (October 1 – end of February): 50 fish until February 1, then will increase to 75 fish if <70% of the Season 2 quota has been landed.

Some fishermen on the Florida east coast have expressed concern about the new trip limits, especially the 50-fish limit for March 1-31 from the Flagler/Volusia line to the Miami-Dade/Monroe line. Additionally, at their April 2017 meeting, the Mackerel Cobia Advisory Panel recommended that the Council review the March trip limit or consider a different trip limit for north of the Volusia/Brevard line.

At the September 2017 the Council approved alternatives and directed staff to begin work on a framework amendment to adjust the trip limits. A framework amendment would not require action by the Gulf Council.

Actions in this amendment

- **Action:** Modify commercial trip limits for king mackerel harvest in the Atlantic Southern Zone.
