

1 who has raised their hand.

2
3 There is none, and we've got through this, and it's been an
4 interesting meeting. Thank you all for participating. The Gulf
5 SSC will have another rendition of this in three or four weeks,
6 when we go over the MRIP calibration sort of process, and I
7 think it's August 13, and we also have the MRIP calibration
8 workshop that's being run by, I believe, the Gulf States Marine
9 Fisheries Commission, and I think that's August 5, which is not
10 a bonified SSC meeting, but there are several representatives
11 that we will have there. Jim Nance, did you have a comment?

12
13 **DR. NANCE:** I just have a question. Has the webinar for the
14 August 5 meeting, the registration for that, has that been sent
15 out yet?

16
17 **CHAIRMAN POWERS:** I'm not sure. Carrie.

18
19 **EXECUTIVE DIRECTOR SIMMONS:** Thank you, Mr. Chairman. No, it
20 has not been sent out yet. We are going to have the materials
21 posted, and we're hosting it on our website. If you go to
22 Meetings, and then go down, it's the bottom one, the MRIP
23 state/federal calibration workshop, and it's actually being
24 hosted by NOAA Science & Technology.

25
26 **CHAIRMAN POWERS:** Excuse me. Okay. You have thirty seconds for
27 any last comments. If not, then --

28
29 **MR. DIAZ:** Dr. Powers, I just wanted to thank the group for
30 their participation and all the work that you all are doing to
31 help further the fisheries of the Gulf of Mexico. I appreciate
32 you all putting up with me for the last couple of days. I
33 always learn a tremendous amount by participating in these
34 meetings, and this one especially, and so thanks for you all's
35 hard work, and it is appreciated by the council members. Thank
36 you, Dr. Powers, and you run a good meeting, Dr. Powers.

37
38 **CHAIRMAN POWERS:** Thank you very much. All right. I am not
39 asking for a motion, and I am declaring that the meeting is now
40 adjourned, and thank you very much.

41
42 (Whereupon, the meeting adjourned on July 22, 2020.)
