

# Coastal Migratory Pelagics Framework Amendment 6 (King Mackerel Trip Limits)

## Advisory Panel Summary

### Background

The new regulations for king mackerel established in CMP Amendment 26 became effective on May 11, 2017, including updated commercial trip limits for the Atlantic Southern zone.

Each Atlantic Southern Zone season has a quota and specified trip limits:

- SC/NC line to the Flagler/Volusia county line:
  - 3,500 lbs year-round
- Flagler/Volusia county line to Miami-Dade/Monroe county line:
  - *Season 1* (March 1- September 30): 50 fish for March 1-31; 75 fish for April 1-September 30, decrease to 50-fish once 75% of season 1 quota has been landed.
  - *Season 2* (October 1 – end of February): 50 fish until February 1, then will increase to 75 fish if <70% of the Season 2 quota has been landed.

Some fishermen on the Florida east coast have expressed concern about the new trip limits, especially the 50-fish limit for March 1-31 from the Flagler/Volusia line to the Miami-Dade/Monroe line. Additionally, at their April 2017 meeting, the Mackerel Cobia Advisory Panel recommended that the Council review the March trip limit or consider a different trip limit for north of the Volusia/Brevard line.

At the December 2017 the Council approved an action and alternatives that would address commercial trip limits for Atlantic king mackerel. There was concern about moving forward with the Amendment given how recently Amendment 26 was implemented. The Committee indicated

a desire to hear from fishermen after they had operated under the new trip limits established in Amendment 26 before moving forward. To achieve this, the Council approved Framework Amendment 6 for scoping at the March 2018 meeting. During the March meeting, the Council received several comments both online and during public comment at the meeting in support of moving forward with the framework amendment. Based on those comments, the Council selected Alternative 3 as their preferred alternative and directed staff to move forward with developing the amendment.

## Actions in this amendment

- **Action:** Modify commercial trip limits for king mackerel harvest in the Atlantic Southern Zone.
