

BREAKOUT SESSION THEMES: October 2014 Council Visioning Workshop

Sub-Regional Management	Data Collection/ Reporting	Bycatch	Year-round Access
Quota Allocation System Design	Evaluating existing data collection programs	Closure strategies: <i>Based on ACLs; Based on Spawning; Based on Season</i>	Sub-regional management
Species Specific	Citizen Science Programs	Depth Strategies	Trip & Bag Limits (Retention)
Alternatives to Sub-regional management	Cooperative Research for monitoring & management	Size-Base Management	Effort
State quotas for recreational sector	Data	Outreach & Education	Season Strategies
Alternatives to using state boundaries	Improve/expand fishery independent programs	Retention Limits	Spawning Closures
Sub-regional management (not quota allocation)	Expand/improve/ implement observer programs	IFQ	ACL Strategies
Time element for management	Explore recreational catch programs	Best Fishing Practices: <i>Avoidance; Recompression Tools</i>	IFQs/Sharing
	Improve & expand reporting mechanisms	ACL Management Buffer	Alternatives
	Incentivize accurate & timely reporting	Reporting	
	Data uses	Bycatch Data Needs	

BREAKOUT SESSION THEMES: October 2014 Council Visioning Workshop

Stakeholder Engagement	Habitat/ Ecosystems	Allocation
SAFMC Website Improvements	Habitat Enhancement	Allocation Management
Promotion & Advertising Approaches	Impact Assessment	Data Needs/ Considerations
Incentives for Participation	Habitat Characterization	Sector Considerations (which sectors)
Expand Social Media	Human Dimensions	Social/ Economic Considerations
Informal Meeting Approaches	Information Needs	Allocation Strategies (How to do it)
Improve Public Hearing Format	Monitoring & enforcement	Strategies for Allocation Shifts
Continue & Expand Webinar Uses	Spatial Management	
Targeted Mailings	Partnerships & Communication	
New Outreach Approaches	Climate Change	
	Modeling	
	Impacts of Fishing (gear)
